

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

RULES RELATIVE TO GOODS IMPORTED INTO RANGOON,

Under article 4 of the treaty with Burma.

1. Goods imported into Rangoon which are liable to an import duty if intended to be for export by the Irrawaddy river to the Burmese territory for sale therein, or pass through it for sale in countries beyond, may be placed in bond liable to the ordinary rules for bonded goods, and when declared to be for export as above mentioned, shall be liable to the duty expressed in Act IV of 1863.

2. When goods are so declared for export, a manifest thereof in the same form as that used for goods arriving by sea, shall be delivered by the owner, agent or consignee to the Collector of customs, and if they are in a closed box or package, the Collector of customs may open the same to compare the contents with the manifest, or may receive such box or package and stamp

or mark the same in such conspicuous and indelible manner as may hereafter be directed, and shall assess the same for duty at one per cent. *ad valorem*.

3. Should the said goods not be required to be shipped within twenty-four hours after such assessment to be sent up to the Irrawaddy, they must remain in charge of the Collector of customs, who shall direct them to be put into the bonded warehouse. Should the owner of such goods not desire that they should be placed in the bonded warehouse, although they may be intended to be kept before shipment for more than twenty-four hours he can retain them in his own charge on paying the full duty to which they would be liable if not declared to be for export under rule 1.

4. Goods, once declared for export under rule 1, if afterwards required to be otherwise disposed of, can be so on payment of the full duty, to which they would have been liable if not declared for export under the said rule.

5. All goods bonded shall be liable to the rules laid down in Act XXV of 1836, and other Acts amending the same.

6. Goods not liable to import duty at Rangoon, can pass up the Irrawaddy river into the Burmese territory without an order, but if intended for export beyond that territory may be so declared and be packed up and marked accordingly as provided in rule 2.

7. No goods shall be shipped to go up the Irrawaddy beyond the British frontier under these rules except by an order from the Collector of customs in form A. annexed, such order, written both in English and Burmese, shall be delivered to the owner or person in charge of the goods, one copy shall be given to the custom house officer accompanying the goods, and one copy be

sent by the post to the Collector of customs or other officer of customs at Thayetmyo. A separate shipping order will be required for goods according to the place where they are declared for sale, whether in Burmese territory or elsewhere, beyond it. Any goods shipped or attempted to be shipped without such orders will be liable to be confiscated by the Collector of customs and the owner or consignee on conviction before a Magistrate, will be liable to pay a fine, not exceeding five hundred rupees for each offence.

8. In cases where it may not be considered necessary for a custom house officer to accompany goods from Rangoon up the Irrawaddy, the Collector of customs, Rangoon, may allow them to proceed without one, and the Collector of customs at Thayetmyo after satisfying himself, that goods arriving at the frontier custom house correspond with the entries in the shipping order A. will, also, after having satisfied himself that they have passed the frontier and reached the Burmese frontier custom house, grant a certificate to that effect. Such certificate must be produced to the Collector of customs at Rangoon within sixty days after the transit duty on such goods has been paid, and if not so produced, the party to whom the goods belong, or who has shipped them, will be liable to pay the full amount of duty which would have been charged had the goods not been declared for export beyond the British territory.

9. Should the Collector of customs consider any precaution necessary to secure the full amount of duty which may become due under the preceding rule, he may require security to the full amount of the difference between the transit and the ordinary import duty, such security to be returned on the production of the certificate from the Collector of customs, Thayetmyo.

10. The Collector of customs at Thayetmyi or any other custom house officer, or other person, authorized by him, or by the Collector of customs of Rangoon, may at a period of the transit of the goods up the Irrawaddy river, while in British territory, open the boxes or packages to ascertain whether they contain the goods as entered, in the shipping order or not. Should the goods not be found as so entered, the owner, consignee, or other party, who may have shipped the goods, shall be liable to the forfeiture declared in section 22 of Act XXV of 1836. And any person, who shall while the goods are in transit remove or efface a stamp, mark, or seal, affixed by any officer of customs to any box or package, or who shall change the outer cover of any box or package so marked, or change the contents or any part thereof, while the goods are in transit shall be liable to the forfeit declared in section 24 of Act XXV of 1836.

RULES FOR THE GUIDANCE OF BRITISH AND BURMESE TRAVELLERS.

Political Notification, 29th May.—His Excellency the Governor-General in Council is pleased to publish for general information, the following rules, prepared with reference to the case of British subjects travelling (under article 3 of the commercial treaty with Burma, dated 1st September 1827) within Burmese territories, and providing generally for the course to be pursued by British subjects, when meeting Burmese officials upon the public streets and roads of the Burmese capital, Mandalay.

These rules have been framed by the Chief Commissioner of British Burma, with the concurrence of the Government of Burma : and His Excellency in Council desires to impress upon persons travelling within Burmese territory the necessity of strictly observing them.

Recent experience has shown the need of a common code of rules, to which British and Burmese could alike refer ; and persons neglecting to attend to the rules now published, will, in the event of complications, have no claim upon their Government for redress :—

RULES.

I.—British subjects desiring to travel through any of the towns and districts of the Burmese empire away from the river Irrawaddy, and not carrying a large number of arms, but travelling in the manner of merchants with four or five muskets only, will meet with no obstruction or impediment, and will be allowed to pass. But if any British subject desires to travel with a large number of muskets, say about ten or twelve, or

more, he must make an application to the Agent to the Chief Commissioner at Mandalay, who will submit it through the Ayebaing Woongyee for the sanction of the Minister of the Hlo Htaw. A passport will be then forwarded to the applicant, who will, in virtue thereof, be allowed to travel unrestrictedly.

II.—British subjects when meeting Burmese officials of rank preceded by lictors, on any of the roads within the four and eight divisions of the boundaries of the Royal Golden City, must in all cases shew due respect to such officials, either by taking off the hat, or saluting with the hand. In the event of persons not attending to this rule, the lictors will not be allowed to lay hand upon them, but a note will be taken of the occurrence, the person or persons will be identified and suitable orders will be issued, which shall be communicated to the Agent to the Chief Commissioner at the Royal Golden City.

III.—British subjects going to the capital of Burma, who may not know what Burmese officials are entitled to the above-mentioned marks of respect can receive full information from the Agent to the Chief Commissioner at Mandalay.

Preamble.

WHEREAS the resolution of the Governor-General in Council, dated the 31st January 1862, declares that, instead of a Judicial Commissioner for the whole province of British Burma, whose ordinary business can well be undertaken by the Chief Commissioner, and who, as Judge of a special Court sitting at the head quarters of each

division, could not possibly dispose of the causes arising at each place in a manner that would satisfy the suitors, or be consistent with the prompt and regular administration of justice, there shall be established at Rangoon and Maulmain a Court to be presided over by a Barrister or Advocate of not less than five years' standing, with full powers of civil and criminal jurisdiction, analogous to those now exercised by the Recorders of Prince of Wales' island and Singapore, with the exception of the power to try cases in which European British subjects are charged with capital offences: and whereas it is expedient to make provision for the establishment of such Court, and of a similar Court for the town of Akyab; and also for the establishment of a Court of Small Causes in each of the said towns of Akyab, Rangoon, and Maulmain, and to prescribe the procedure for the said Courts, respectively; It is enacted as follows:—

I. It shall be lawful for the Governor-General in Council to establish Courts of Judicature for the towns of Akyab, Rangoon, and Maulmain, in British Burma, or for any of the said towns, which Courts, when so established, shall be called, respectively, the "Court of the Recorder of Akyab," the "Court of the Recorder of Rangoon," and the "Court of the Recorder of Maulmain." same in the same manner, so far as circumstances will permit, in which a notification under the said section is directed to be published.

VIII. Notwithstanding anything in sections 6 and 7 of this Act contained, it shall be lawful for the Recorder to hold his Court at times other than those notified, as provided in the said sections, when for any good and sufficient reason it shall appear to him necessary and proper to do so. Recorder may hold Court at other than notified times.

IX. Whenever there shall be one Recorder for any two only of the said three Courts, the provisions contained in sections 6, 7, and 8 of this Act shall be applied, so far as the same may be applicable, in respect of the sittings to be held by such Recorder within the towns of the Courts of which he is Recorder. If the Plaintiff shall appear, and the defendant shall not appear, or not be ready, the cause shall be called and heard in the usual way ; unless on the application of the defendant, and on such terms as to costs as may seem just to the Court, the hearing shall be allowed to be adjourned or postponed.

IV. If, when the cause is called in its turn, the plaintiff shall not appear, or shall not be ready to proceed, and the defendant shall appear, the plaintiff shall be non-suited, unless the Court on the application of plaintiff and on payment of the day's costs (if ordered) shall think fit to give further time for the hearing of the case.

V. Provided always, that if within seven days after such judgment of non-suit shall have been given, the Plaintiff shall appear and shew to the Court sufficient cause for his previous non-appearance, the Court may order such non-suit to be set aside on such terms as to costs and otherwise as to the Court shall seem fit.

VI. In cases in which the Court shall call for written statements, the parties shall deliver into Court such statements four clear days before the day of hearing, and if such statements shall not be delivered within the period limited, the hearing of the suit shall be adjourned.

VII. If one of the parties shall fail to deliver his written statement within the period limited, he shall pay the costs occasioned by the adjournment, unless the Court shall otherwise specially direct. But if both parties shall fail to deliver their written statements within the period limited, the costs of such adjournment shall be costs in the cause, unless the Court shall otherwise order.

VIII. Each party after delivering in his own written statement shall be entitled to receive from the opposite party, a copy of such opposite party's written statement.

RULES

REGARDING MORTGAGES IN PEGU MADE APPLICABLE TO THE PROVINCE OF BRITISH BURMA BY THE CHIEF COMMISSIONER AND AGENT TO THE GOVERNOR GENERAL, BY HIS CIRCULAR No. 117 OF THE 1ST JULY 1865.

Extract from the Judgment of the Rangoon Judicial Deputy Commissioner's Court, in regular suit No. 555 of 1859, laying down general rules regarding suits for foreclosure of mortgages in Pegu.

This, therefore, the Court will adopt as the law regulating the present and all future cases brought for foreclosure of a mortgage, viz :—

1st. The mortgagee under a conditional bill of sale may apply to the Court at any time after the stipulated period for the payment of the debt has expired, to call upon the mortgager to pay into Court the principal, interest and costs, and to give him notice that failing therein the mortgage will be foreclosed.

2nd. On receiving such an application the Court will give a fair and reasonable time to the mortgager to discharge the debt with interest and costs, and on his failing to do so, the Court will, on the expiration of the period it has allowed the mortgager, declare the mortgage foreclosed, and the sale of the property to the mortgagee made absolute. It will rest with the Court to determine in every case what is a fair and reasonable time to allow for the discharge of the debt. This is more equitable and convenient than to fix one invariable term for all cases. It is manifest that what might be only a fair and reasonable time to allow to pay off a mortgage on a property worth a lakh of rupees, would be a disproportionate and quite unnecessarily long pe-

riod in the case of a bamboo hut standing on a thousand square feet of swamp. Six months, however, is the maximum time which the Court will ever allow under any circumstances whatever, for the payment of the mortgage debt.

3rd. The same principle of law shall be applied to cases when a mortgagee holds a power to sell, instead of a conditional bill of sale to himself; that is to say, the mortgagee may apply to the Court to call on the mortgager to discharge his debt, and on his failing to do so, within a reasonable time, to be fixed by the Court, the Court will order the estate to be sold. The Court will not uphold the validity of any private sale by the mortgagee without the intervention of the Court, notwithstanding any clause in the mortgage bond conveying that power, unless at the time of, or immediately before the sale, the mortgager expressly gives his consent in writing to such private sale.

4th. It is necessary also to note here, that, agreeably to section No. XV* of the rules for the Revenue administration of the Province of British Burma, "mortgagees, for the foreclosure of whose mortgages no period has been fixed, and who have held unchallenged possession of the land for twelve years and more, shall have the right of owners to such land:"—that is to say, that where mortgagees have been in undisturbed possession for twelve years and upwards, the equity of redemption is forever lost to the mortgager. A very important rule, which it is desirable thus publicly to bring forward and direct attention to; as I greatly doubt if it is at all generally known.

The above ruling was confirmed by the Pegu Commissioner's Court in appeal case No. 6 of the 4th quarter of 1859.

* NOTE.—Rule XVII of present rules.

OF PRACTICE OF THE DISTRICT COURT OF RANGOON EXTENDED TO ALL DISTRICT COURTS OF BRITISH BURMA, VIDE CHIEF COMMISSIONER'S CIRCULAR No. 117, DATED RANGOON 1ST JULY 1865.

On estates in
the hands of the
bailiff of the
Court, dated 15th
May 1860.

1. Whereas it is necessary that the Court should at regular intervals be made acquainted with the state of all the estates in the hands of the bailiff of the Court in his character of official assignee, receiver, and manager. It is ordered that on the second Saturday of January, April, July, and October of each year, the bailiff file an account of each of the insolvent and intestate estates under his charge with vouchers in support of those accounts. The accounts to be made up to the close of the previous quarter, and to include the commission of 5 per cent allowed to the bailiff.

Proceeds of
sale, when to be
paid by the Govt.
auctioneer, dated
26th May 1860.

2. The Government auctioneer must pay into the treasury the proceeds of sale of movable property on the first Court day after the sale.

Costs of copy-
ing to be allowed,
dated 11th June
1860.

3. As the expenses of procuring copies of documents are included in the costs of suit, the Court fixes the following rates as those which it will allow in fixing the amount of costs.

Copies per foolscap page of 25 lines ...Rs. 1

Translations do. do., 2

All fractional parts of pages to count as a full page.

Commission al-
lowed to Govt.
auctioneer, dated
7th July 1861.

4. The commission to be allowed from this date to the Government auctioneer will be 5 per cent on the proceeds of sale up to rupees 10,000, and 1 per cent above that amount, to include every expense of every description.

5. The order prohibiting any person from removing any records from the Court without the *leave in writing of the Judge* applies equally to the record keeper and every other officer of the Court.

Order relative to removal of records, dated 31st August 1862.

6. The law requires that every plaint shall be written on one stamp paper of the prescribed value, and that if this is not sufficient to contain the entire subject matter of the plaint, one or more additional pieces of paper may be used of the value required for petitions.

Plaints how to be written, dated 7th November 1860.

According to this rule it is not lawful to write a plaint upon several sheets of stamped paper whose aggregate value amounts to the value of the stamp prescribed.

This may be done in the case of deeds, instruments or writings, but is not allowable in the case of plaints.

In future therefore, this Court will reject any plaint which is written on more sheets than one of stamped paper, purchased after this date, unless the first sheet bears the full stamp prescribed for the plaint and the supplementary sheets bear each an eight anna stamp.

7. The Court lays down the following rules in amplification and explanation of section 270 of Act VIII of 1859.

Procedure regarding application for attachment of property and disposal of proceeds thereof, dated 15th November 1860.

1. Where two or more applications for attachment are made against the same property, if any one of these applications is preferred in any Court one day before the others, such application will be entitled to priority, and the party making such application will be entitled to be first paid out of the proceeds of the property attached, notwithstanding a subsequent attachment of the same property in execution of a prior decree, and notwithstanding the said property may be actually attached by the same or some other Court on the

subsequent application of some other party before the attachment under the first application is actually made.

2. When two or more applications are made on the same day, whether in the same or in different Courts, they shall be all considered contemporaneous, and entitled to share rateably on the proceeds of the property attached, without reference to the date of decree, or to the date of the attachment being actually made pursuant to such application. Provided, in both the above cases, that if any delay which occurs in making the attachment is solely owing to any laches on the part of the applicant for such attachments, then the number of days during which such laches may have continued shall be added on to the date of the original application, and the original application shall be treated as having been made on the last of the days so added.

For example—A. applies on the 1st November for a general attachment on the movable property of B. to be pointed out by the said A., the Court orders a warrant to issue accordingly, which is done on the same day. A. does not take any steps to have the warrant served on the property pointed out to the bailiff till the 10th November. Then in the distribution of assets if there are more attachments than one on B's property, A's application will be dealt with as though it had been made on the 10th November and not on the 1st.

Procedure regarding property attached more than once, dated 15th November 1860.

8. Whereas it is expedient to make rules for the attachment of property which has been already attached on the application of some other party, either in the same or a different Court, it is ordered as follows:—

1. Any person may apply for a warrant of attachment upon any property in execution of a decree although such property has been already attached by some other person.

2. In such case the bailiff shall make the second and all subsequent attachments by delivering a copy of the subsequent warrant to the clerk of the Court from which the first attachment issued, to file on the record of the case in which the order for such attachment was passed.

Before delivering the copy to the clerk of the Court, the bailiff shall endorse upon it according to the following form :—

15th November 1860.

Delivered to the clerk of the——Court to serve by filing with Mis. Case No. 100 of 1860, A. B. vs. B. C.

XY. Bailiff.

The bailiff will return the original warrant with a report of service endorsed according to the following form :—

15th November 1860.

Certified that the within described property having been already attached

by { this } Court

on the 10th instant in Mis. Case No. 100 of 1860, A. B. vs. B. C. I have served the within warrant by delivering a copy thereof to the clerk

of { this } Court

to file with the said Case as appears by his receipt above.

XY. Bailiff.

Received from the bailiff a copy of the within warrant which I have filed with Mis. Case No. 100 of 1860, A. B. vs. B. C.

YZ. Clerk of the Court.

Evidence of parties appearing as witnesses on their own behalf, dated 14th January 1861.

9. The Court directs that in future in all cases in which the parties to a suit name themselves as witnesses in their own behalf, they shall file a declaration on unstamped paper containing the testimony they desire to give, which will be filed on the record as evidence, and will be read out, and the opposite party allowed to cross-examine thereon. This is in conformity with section 169 of Act VIII of 1859, and will save the useless waste of time which results from the judge being obliged to take down the evidence as delivered orally.

Rates of tulubana and allowance to Ameens in the subordinate Courts, dated 19th March 1861.

10. The following rules are laid down for the tulubana to peons and allowances to Ameens employed in the subordinate Courts.

These rates are never to be exceeded.

TULUBANA.

	Peon hire.	Boat hire.	Total.

Ten English miles or five taings to be calculated as one day's journey, time to be allowed at this rate to go to and return from the village, and one day extra for finding the party and serving the process.

For example a summons has to be served at a village 25 miles distant from the Court, making there and back 50 miles, for this 5 days will be allowed and 1 more for serving the summons, total 6 days.

ALLOWANCE TO AMEENS.

The time calculated as for tulubana 1 day being allowed in this case for surveying the land and making plan, as in the other for finding the party and serving the process.

11. Whereas it appears that the rate of allowance to Ameens, fixed by the order of the 19th March, is not sufficient, the following rate is substituted :—

Allowance to
Ameens, dated
14th March 1861.

	PER DIEM.

PROCEEDINGS OF ARBITRATORS.

Rules of practice, for the better regulation of cases referred to arbitration, dated 18th July 1861.

1. Both the parties shall have notice of the time and place of meeting of the arbitrators, and both the parties shall have a right to be present, either in person or by a pleader, or authorized agent at every sitting of the arbitrators. If either of the parties fail to appear after due notice, the arbitrators may proceed in the manner directed in the Code for default of parties.

2. The arbitrators shall make notes of their proceedings at each sitting, with a summary of the examination of the parties and the depositions of the witnesses.

3. These notes may be written in any language the arbitrators please. They need not be translated, unless either of the parties move to set aside the award, or to reduce the fees charged by the arbitrators, in which case if the notes are in any other language than English or Burmese, and the Court requires to refer to them, it will order them to be translated into one or other of those languages, at the cost, in the first instance, of the party objecting, and chargeable afterwards as costs of suit.

4. The arbitrators may examine the parties or their witnesses, with or without oath, as they deem fit, and are authorized to administer oaths accordingly.

5. If the arbitrators reject any documentary evidence tendered by either party, or refuse to examine any witness, named by either party, they shall note the fact, and the reason of such rejection or refusal, upon their proceedings.

6. The mode of conducting an arbitration, subject to the above general rules, is left to the arbitrators.

2ND.—UMPIRE.

7. When an umpire is appointed, it is not necessary that he should sit with the arbitrators, if he does so, he will not be entitled to any fees for such sittings. The duties of the umpire only commence after the arbitrators have referred the case to him, on their being unable to agree between themselves to an award. The arbitrators' functions are then at an end, and the umpire will proceed with the case *alone*.

8. An umpire may make his award on the notes of the arbitrators, if no objection be taken by the parties, but if either party expressly requests the umpire either to rehear evidence already given before the arbitrators, or to examine new witnesses, the umpire must do so, and if he refuses, his refusal will be a sufficient cause for the Court to set aside his award.

3RD.—AWARD.

9. The arbitrators must take care by their award, either in terms or in effect, to decide upon all matters of claim that are referred to them, and must not, because a claim has been admitted before them, or because the parties have not wished or even requested them to arbitrate on the subject, omit to notice or include it in the award.

10. The award must be *certain, clear, decisive, and final*.

11. The Court may enlarge the time for making an award, notwithstanding the time for making it has expired, provided the delay is explained to the Court's satisfaction.

4TH.—SETTING ASIDE THE AWARD.

12. If either party intends to raise any objection as to the mode in which the arbitrators have conducted any part of their proceedings, with a view to set aside their award, he must give notice *at the time* that he intends to rely on such objec-

tion, and the arbitrators shall enter such notice on their proceedings.

13. The Court will not enter into the correctness of the arbitrators' law, upon the mere suggestion of mistake, so long as they have acted within their jurisdiction. The objection must appear on the face of the award. But if it can be shewn that the arbitrators have acted *without jurisdiction*, the Court will send the award back to them for reconsideration, and, in the event of their refusing to amend it, will set it aside as null and void.

14. As to what *misconduct* of an arbitrator may induce a Court to set aside his award, it must be of such a nature as probably to have affected the decision of the merits and justice of the case. Where an arbitrator questioned a witness and received statements from him in the absence, and without the consent of, one party to the reference, this has been held to be misconduct sufficient to justify the Court in setting the award aside, so also where the arbitrators held private meetings with one of the parties, and admitted him to be heard, to induce an alteration in the award.

5TH.—COSTS.

15. The fee of an arbitrator is fixed at twice the rate of the allowance to a witness of the same class as the arbitrator, for each sitting, an ordinary sitting is expected to last three hours.

16. The arbitrators will note at foot of their award the number of sittings they have held, and the amount of the fees they claim. The Court will tax the costs of arbitration and reduce the arbitrators' fees if it is of opinion that the sittings have been unnecessarily numerous, or that the proceedings have been needlessly protracted.

17. The Court will previously to the reference to arbitration, require the parties to deposit in Court such sum as it may consider reasonable on account of the probable costs of arbitration, and will from time to time, on cause appearing, require the deposit of a further sum on the same account. In the event of such payment not being made by the time fixed, the Court will proceed to levy the same in the manner prescribed for execution of decrees, or will treat it as a default and act accordingly.

14. When property is sold in execution of a decree in favor of more than one person, the Government auctioneer will only accept, in lieu of payment, a receipt signed by *all* the joint decree holders.

Property sold in execution and purchased by one of several joint decree holders, dated 3rd August 1861.

If one of several joint decree holders purchase property sold in execution of their decree he must pay cash for it the same as any third party unless he is specially authorized or, as in the case of a member of a mercantile firm, he has power to sign for *all* the decree holders; or unless he is a *bonâ fide* mortgagee of the property sold.

15. Exhibits may be written on several sheets of stamped paper so that they amount to the full value, but no *blank* stamp paper can be attached to make up the value.

Value of stamp requisite for law papers requiring stamp, dated 3rd September 1861.

Every law paper which requires a stamp must be written on a *stamp paper* of the full value prescribed for it, and no blank sheets or extra sheets of stamp paper can be allowed to be annexed to it to make up the value.

This does not apply to exhibits the originals of which may be written on one or more stamp papers, if the value of the stamps used amount to the value required by the schedule. But *blank* stamp papers cannot be allowed to be attached to exhibits to make up their value. If the ori-

ginals are on unstamped paper the penalty must be paid in cash.

Bills and accounts how to be entered in plaint, dated 9th September 1861.

16. Clause 3, section 26 of Act VIII of 1859 requires that in all suits for the price of goods delivered on suits on an account, the account shall be set out *at foot of the plaint*.

The present practice of attaching a number of bills to the plaint and merely referring to them on the plaint is not a sufficient compliance with the law.

A bill or account is not an exhibit, it is merely a *written statement* of the particulars of plaintiff's demand, and such particulars must be entered on the plaint itself. The Court therefore henceforth will reject any plaint which does not contain *in itself* a full account of the particulars of plaintiff's demand.

Pleaders how and when allowed to take notes, dated 9th September 1861.

17. R U L E S

FOR THE ADMISSION AND PRACTICE OF CERTIFICATED PLEADERS.

Dated Rangoon, 1st September 1863.

Whereas by the 25th section of Act I of 1863, it is enacted; that the powers vested in the Sudder Court by the Code of Civil Procedure shall be exercised in British Burma by the Chief Commissioner, it is, in pursuance of those powers, hereby ordered, that the following rules be established for the admission of persons to act as certificated pleaders of the first, second, and third class, in the Commission Courts of British Burma.

CERTIFICATED PLEADERS OF THE FIRST CLASS.

1. All barristers at law, or advocates of the Scotch bar, all advocates, attornies at law, or solicitors of any High or Supreme Colonial Court duly authorized by Royal Charter to admit advocates and solicitors, and certificated pleaders of the first class, now practising in the Courts of the Commission of British Burma, shall be entitled *de jure*, to admission to practise as pleaders of the first class in the Courts of the Chief Commissioner, Commissioners of divisions, and

all other Commission Courts whatsoever, civil or criminal, throughout British Burma, on the proof of their qualification as above, by production of their certificates, or act of call, should such evidence be required by the Chief Commissioner, or Commissioner of division.

2. Gentlemen desirous of admission as certificated pleaders of the first class, and not qualified *de jure*, as provided in the first rule, will be required to signify their intention of applying for admission by written application to the Commissioner of the division. The candidate will, at the end of six weeks, be required to submit to the Commissioner of division, testimonials of character, from two known respectable residents of these provinces, or from other undoubted sources, and the Commissioner may then either pass order for the candidate's admission as a certificated pleader of the first class, or may direct him to be examined in the manner hereafter described.

3. When gentlemen qualifying under the second rule are admitted, the order for their admission shall be signed by the Commissioner, and all gentlemen qualifying under either the first or second rule, shall, on admission, sign the roll of certificated pleaders of the first class, and have right of seniority according to their order on the said roll, reserving always to the Government Pleader the right of precedence, to which he is now entitled by custom, in virtue of his office.

4. Where, as provided by the latter part of the second rule, the Commissioner shall direct an applicant to be examined, he shall remit the candidate for examination by a committee of one advocate and two certificated pleaders, taken in rotation from the roll of advocates and pleaders actually in practice, who shall examine the applicant in the usual branches of a liberal education, and in the law of evidence, the Codes of

Civil and Criminal Procedure, the Penal Code, and such other authorities as may be convenient. If the examination be satisfactory, the senior examiner shall so report to the Commissioner, who shall thereupon direct the candidate to be admitted; but if unsatisfactory, the candidate shall have the right of appeal to Commissioner, whose orders thereon shall be final. When the candidate knows only the Burmese language, the examination will be conducted in that language by the Deputy Commissioner.

5. The Chief Commissioner further directs, that the fees to be received by all pleaders of the first class shall be according to the scale of fees for the remuneration of pleaders heretofore set forth by authority, in the 520th section of the Pegu Civil Code, and the general rules in respect thereof set forth in the 519th, 521st, 522nd, 523rd, 524th, 525th, 526th, 527th, 528th, and 529th sections of the said Code as annexed hereto.

6. When suits are conducted by pleaders of the second or third class as hereinafter set forth, a sum equal to one half the fees of a first class pleader shall be allowed in the case of a second class pleader, and a sum equal to one third the fees of a first class pleader shall be allowed in the case of the third class pleader, in taxation, to the party employing such pleader, against the party condemned in costs.

CERTIFICATED PLEADERS OF THE SECOND CLASS.

1. All persons now on the rolls of the Courts of any of the three divisions of British Burma as certificated pleaders not qualified as above, are entitled *de jure*, to admission as certificated pleaders of the second class, in all Courts of the Commission, civil or criminal, within their respective divisions.

2. All persons hereafter seeking to be admitted as second class pleaders, will be required to submit, with their application for admission, a certificate from some advocate of the Recorder's Court, or first class pleader, that such applicant has for the space of not less than one year been regularly employed in the office of such pleader in the study of the law and active details of practice, or a certificate from some second class pleader, that such applicant has been employed in his office for a space of not less than three years, in the manner before expressed; or to prove that such applicant has been a certificated pleader of the third class for not less than three years, and shall submit, with such application and certificate, testimonials of character signed by two known respectable inhabitants of British Burma or in the case of a certificated pleader of the third class, by the Deputy Commissioner of the district where he received the certificate of that class. Should these be satisfactory, a day will be appointed for the examination of the candidate, by a committee of three pleaders, chosen in rotation according to seniority, who will examine the applicant in the Codes of Criminal and Civil Procedure, the Rules of Practice, the Penal Code, and the Law of Evidence, and report the result to the Commissioner of division. If the report be favorable, the applicant will be at once admitted a second class pleader, and his name placed on the list which will be suspended in each Court. If unsatisfactory, the applicant may appeal to the said Commissioner, who may make such final order thereon as shall be necessary.

3. The order of admission for a second class pleader will be made by the said Commissioner. Pleaders thus admitted shall be entitled, on filing in Court in each case their written power or deputation, to appear, plead, and act for and on

behalf of suitors in all Courts established under Act I of 1863, either alone, or with a first class pleader of the Court.

4. It shall be competent to any pleader admitted under these rules, to apply to the Commissioner, after such pleader has attained three years' standing, to admit him to the higher grade of a first class pleader, provided always that the Commissioner of division may, if he deem it right, require the applicant to pass the higher standard of examination prescribed for first class pleaders.

5. Nothing in any of these rules shall be taken to prevent a first class pleader from, either alone or with a second class pleader, appearing in the Lower Courts of the Commission if he desire so to do, but in taxation of costs the fees of one pleader only will be allowed in the Lower Courts : provided always, that the provisions of the general rule, as to the language of the Courts be strictly conformed to.

CERTIFICATED PLEADERS OF THE THIRD CLASS.

1. Persons at present practising as pleaders under certificates, or orders from the Deputy Commissioner of the district or otherwise, shall and may continue to do so as certificated pleaders of the third class, and hereafter other persons may be admitted to the same privileges, on passing an examination in the subjects set forth in the second rule in respect of second class pleaders. This examination shall be conducted by a committee to be named by the Deputy Commissioner of the district, and of which committee the Deputy Commissioner shall be president. If admitted, the order for admission shall be written by the Deputy Commissioner. Provided always, that pleaders of the third class shall not be entitled to practise in Courts beyond the limits of the district wherein they are admitted except by special leave from the Judge of an Appellate Court, and that their

fees to be allowed in taxation shall in no case exceed one third of those allowable to first class pleaders.

2. It shall be competent to the Commissioner, on grave cause shown, to remove the name of any pleader of any class, from the roll, for any dishonorable or disgraceful conduct, and to withdraw the certificate of such pleader: and on such removal of name, the person whose name is so removed, shall cease to be, and to enjoy the privileges attaching to the office of such pleader: *provided always*, that no pleader shall be removed from his office without being fully heard in his defence on the precise charge urged against him, which shall be reduced to writing; *and provided further*, that an appeal shall lie against any order for withdrawal of certificate made by the Commissioner of division, to the Chief Commissioner.

3. In Courts presided over by a British Judge, or Magistrate, the languages of record and address shall be English or Burmese; and in Courts presided over by a Burmese Judge, the language of record and address shall be Burmese only. But where a British Judge presides the language of address to the Court will be the same by both sides, and in case of a difference of language existing between the pleaders, English will in that case have the preference.

4. All Pleaders of whatever class are subject to the rules laid down in Act I of 1846.

5. No one will be admitted as a pleader who has not attained the age of twenty-one years.

6. Parties employing pleaders shall be at liberty to settle with them, by private agreement the remuneration to be paid for their professional services.

7. In the absence of such agreement, a pleader shall be allowed to charge fees according to the

subjoined scale, and where costs are awarded against another party, pleaders' fees shall be included in the award according to the subjoined scale only, whatever may be the private agreement between the pleader and his client. Pleaders will be allowed fees according to the following scale in any regular suit or appeal decided on the merits.

and so on, adding 5 Rs. for every additional sum of 100 Rs. up to 5,000 Rs.

If above 5,000 Rs., then 250 Rs. on that sum, and 2 Rs. on every additional sum of 100 Rs. up to 20,000 Rs.

If above 20,000 Rs. then 550 Rs. on that sum, and 1 Rupee on every additional sum of 100 Rs. up to 50,000 Rs.

If above 50,000 Rs. then 850 Rs. on that sum and 8 annas on every additional sum of 100 Rs. up to 80,000 Rs.

If the amount or value shall exceed 80,000 Rs. the fee of the pleader shall be one thousand rupees

and shall in no instance exceed that sum, however great may be the value or amount of the suit.

8. In summary and miscellaneous cases the amount which shall be awarded as costs on account of pleaders' fees shall be one fourth of what it would have been in a regular suit decided on its merits. If a suit shall be withdrawn or dismissed in default, or non-suited without a determination upon the merits of the case, before the issues shall have been declared, the respective pleaders of the plaintiff and defendant shall each be entitled to only one fourth of the established fee which they would have received had the suit been brought to a regular decision by the Court.

9. If a suit shall be withdrawn or dismissed in default, or non-suited without determination upon the merits of the case, after the issues shall have been declared, or if an appeal shall be decided without summoning the respondent, or without calling on respondent to answer, if he shall have appeared without having been summoned, the respective pleaders shall be entitled to one half of the fees which they would have received if judgment had been given in the case, or if the respondent had been summoned.

10. Private agreements between parties and their pleaders respecting remuneration to be paid for professional services, can only be enforced by a regular suit, and the agreement must be in writing.

11. An appeal shall be considered a separate suit, although the pleader who conducts it may have been employed in the original suit out of which the appeal arises.

12. Although there may be more than one plaintiff in a suit, only one plaintiff can require to be filed; plaintiffs therefore can only recover as

costs of suit the fee of one pleader, however many they may employ.

13. If there be more than one defendant and their defence is substantially the same, they need only file one answer for all; therefore, whether they employ several pleaders, or one pleader, and he files separate answers for the several defendants, the fees of one pleader only shall be charged as costs of suit.

14. If there be more than one defendant and their defences are substantially different from and independent of, each other, the defendants may either employ several pleaders, or one pleader may file for them, separate answers; in this case defendants shall be allowed, as costs of suit, fees for as many pleaders as there are separate and distinct defences.

15. The fees for regular, summary, and miscellaneous suits and appeals include the entire remuneration which pleaders are entitled to recover, without a special agreement, for conducting all business connected therewith in or out of Court.

16. For opinions, drawing up deeds of sale, transfer, mortgage or release, and other legal documents of whatever description, the fees shall be a matter of private agreement between the pleaders and their clients, and no suits for such fees shall be entertained in the Courts except on written agreement.

THIS IS TO CERTIFY, that
is hereby admitted to practise as a pleader of
the class, in the Civil and
Criminal Courts of the
division of British Burma and with the rights and
privileges claimable under the rules for pleaders
passed by the Chief Commissioner of British Bur-

rules he is subject.

The Governor-General in Council has also been pleased to direct that the rattans to be made use of for the purpose shall not exceed half an inch in diameter, and that they shall be of a uniform length of three feet three inches; and further that the punishment on all occasions shall be inflicted on the breech, every precaution being taken to prevent the blows from falling upon any other part of the person receiving the punishment.

R U L E S

REGARDING DEPUTATION OF WITNESSES TO THE
SUPREME COURT.

Extract from the proceedings of the Right Hon'ble the Governor-General of India in Council, in the Home Department, (Judicial) under date the 16th May 1861.

Parties attending the Supreme Court from the mofussil are required to report their arrival in Calcutta at the Police office, and the Commissioner of Police is charged with the duty of arranging for the payment to them of expenses according to rates fixed with reference to their circumstances and station in life. The rates of payment for each class are as follows :—

1st class.—Each person coming under this class to be allowed eight annas a mile as travelling expenses for himself and a servant; five rupees per diem as hotel allowance while in Calcutta; and two rupees for carriage hire for each day he may have to attend at the Supreme Court.

2nd class.—Persons of this class to have their actual travelling expenses, three rupees per diem for board in Calcutta, and one rupee palkee hire for each day of attendance at the Supreme Court.

3rd class.—Persons of this class to have their actual travelling expenses, and one rupee eight annas per diem as board allowance.

As regards places beyond the sea the rule for regulating travelling allowances must of course be modified according to the special circumstances of the case.

Where advances are given by local officers to parties proceeding to Calcutta, such advances should be regulated by the above scale. It is not anticipated that any practical difficulty will

be experienced in determining the class to which a prosecutor or witness belongs. It may however be stated generally in explanation, that the 3rd class is meant to include only laborers, workmen, and persons in a similar condition of life.

His Excellency in Council leaves it to the local Governments and Administrations to issue such subsidiary orders for the guidance of Magistrates as may be necessary to give effect to the above rules. A copy of the "rules for the observance of mofussil Magistrates" which have been adopted by the Government of Bengal, at the instance of the Commissioner of Police, is forwarded for information.

R U L E S

FOR THE OBSERVANCE OF MOFUSSIL MAGISTATES
IN CASES OF BRITISH SUBJECTS COMMITTED BY
THEM FOR TRIAL BY THE SUPREME COURT,
CALCUTTA.

Dated Calcutta Police Office, 1st June 1861.

1. European prisoners, when committed, must be sent with their warrants of commitment to the great jail of Calcutta to the custody of the sheriff, and a letter should be sent to the Commissioner of Police in Calcutta, giving the names and crime of the prisoner, as also the date and mode of forwarding him to Calcutta.

2. The depositions taken in the case must be sent at the same time to the Clerk of the Crown, and the exhibits, such as swords, bludgeons, or stolen property in charge of the Police officers who can testify to them.

3. All witnesses must be bound down in recognizances to attend at the Supreme Court in Calcutta at noon on the first day of the first Sessions.

The various Sessions commence throughout the year on dates which are fixed periodically.

4. The Magistrate should intimate to the Commissioner of Police, by letter, the names of the witnesses, and direct them all, European and native, immediately on their arrival in Calcutta to leave their names and addresses at the Calcutta Police office, where they will receive any information or assistance they may require.

5. The witnesses, on the conclusion of the trial, will receive their travelling expenses on application to the Commissioner of Police.

6. Magistrates should be careful that while they send down those witnesses who are absolutely necessary for a proper investigation of the case, none others should be compelled to leave their homes. The evidence of native witnesses to Sooruth hâis and such documents are never taken in the Supreme Court. For instance, if the Civil Surgeon has examined the body of the murdered or wounded man, his evidence will be sufficient without that of the natives who saw the wounds in the Darogah's mofussil investigation. The presence of unnecessary witnesses invariably calls down the animadversions of the Judges of the Supreme Court.

R U L E S

FOR TRAVELLING ALLOWANCE TO WITNESSES IN HIGH COURT CRIMINAL CASES.

Rules for regulating the payment of travelling allowances, &c., to prosecutors and witnesses attending criminal trials at the High Court of original jurisdiction in public prosecutions.

All disbursements on this account are to be made by the Commissioner of Police, Calcutta, to whom all prosecutors and witnesses are, on arrival at Calcutta, to report themselves.

Europeans and Eurasians are to be divided into three classes. Care should be taken by mofussil Magistrates despatching such persons that they are correctly classified according to their respective stations in life, and that the Commissioner of Police is duly informed.

The following rates are to be paid on account of expenses of this nature for persons coming to Calcutta and returning:

Travelling expenses.—1st class.	2nd class.	3rd class.

All classes of native prosecutors and witnesses are to be paid their bonâ fide travelling charges and boarding expenses, both by the way and during their stay in Calcutta, according to their stations in life, of which due information is to be given to the Commissioner of Police in Calcutta, by the Magistrate despatching them.

Whenever practicable, prosecutors and witnesses should travel by rail or steamer.

The boarding allowance at Calcutta will cease as soon after the trial as the means of quitting the presidency become available. The Commissioner of Police, Calcutta, will see that this rule is adhered to.

Mofussil Magistrates will make reasonable advances to persons desiring it, to enable them to reach Calcutta. Intimation of such advances must be immediately made to the Commissioner

of Police, who is to refund the amount to the office making the advance.

The Magistrate of the district from which prosecutors and witnesses are despatched, will report to the Commissioner of Police the date of their departure, and will instruct them to report themselves to that officer on their arrival at Calcutta.

R U L E S

lation to processes issued through, and requiring to be served or enforced by them, in cases judicially before him.

3. If in the conduct of a trial or at any other time, an Honorary Magistrate shall see reason to impute misconduct to any officer of Police, he will make report of the case to the nearest departmental superior of such officer of Police.

OF POLICE.

This Act was extended to the several divisions
of British Burma as follows :—

Pegu division—by Notification No. 1453, of
31st July 1861.

Tenasserim division—by Notification No. 1806,

MEMORANDUM.

Dated Rangoon, 12th May 1865.

THE CHIEF COMMISSIONER IS PLEASED TO PRESCRIBE THE FOLLOWING RULES FOR REGULATING THE ADMINISTRATION OF THE POLICE IN BRITISH BURMA.

Administration
of the Police how
regulated.

1. The administration of the Police throughout the local jurisdiction of the Magistrate of the district is vested in the District Superintendent of Police under the general control and direction of the Magistrate. The District Magistrate has no authority to interfere in the internal organization and discipline of the Police force, but in other respects his position in relation to the Police is not materially changed. The District Superintendent is in effect an aid to the Magistrate for the superintendence of the Police of the district.

2. The Commissioners of divisions will continue to exercise the same supervision over the Magistrates in respect to the administration of Police and criminal justice which they have hitherto exercised; but they will not in any way interfere with the details of the organization of the Police. Commissioners of divisions must bear in mind that they are responsible, as heretofore, for the entire executive administration of their divisions.

Duties of In-
spector General.

3. The duties of the Inspector General are the general control, the inspection and discipline of the force in the province.

Duties of Dis-
trict Superinten-
dent.

4. The District Superintendent is the head of the Police force employed in the district. He is, therefore, responsible to the Magistrate for the efficient performance of the duties devolving upon the force. It is his duty to see that all or-

ders of the Magistrate, or other competent authority, are promptly and correctly carried out.

5. All reports which the law requires to be made to the Magistrate of the district, or to a Magistrate having jurisdiction, must generally be made by the subordinate Police to the District Superintendent or officer acting on his behalf; and it will be the duty of the Superintendent or other officer either to pass orders thereon, or, if beyond his competence to deal with, to lay all such reports, and all information and returns, before the Magistrate. The subordinate Police may, however, report direct to the Magistrate when necessary.

Relations with
the Magistracy.

6. All orders of the Magistrate to the subordinate Police will be conveyed to the head officer of Police in attendance in the Court of the Magistrate for communication to the subordinate officers concerned. The orders of the Magistrate will either be in the shape of warrants, summons, subpoenas, or other process, or will take the form of specific instructions on special points.

7. All orders other than warrants or other processes will be entered in an order book to be kept for the purpose in each Magistrate's Court. They will thus come regularly under the notice of the District Superintendent, who should, if possible, have his office in the Magistrate's cutcherry. Warrants or other processes will be entered in the register in a form to be prescribed by the Inspector General.

8. In communicating orders to the district Police it is not necessary that separate orders should be addressed. All that is requisite is to send each Inspector an extract from the order book containing all orders applicable to him that have been issued during the day. These extracts, when received by the Police officer to whom they

are addressed, will be entered, according to date of receipt, in his Station order book, and, as soon as the orders have been carried out, the extract will be returned with a brief endorsement shewing the manner of execution.

9. It will be necessary to bear in mind the distinction between the "Magistrate of the district" and "a Magistrate." The "Magistrate of the district" is the chief officer charged with the executive administration of the district in criminal matters; "a Magistrate" includes all persons exercising any of the powers of a Magistrate, such as Joint, Assistant, and Deputy Magistrates.

10. The District Superintendent will, without delay, inform the Magistrate of the district of any circumstance within the knowledge of the Police likely to lead to a disturbance or breach of the peace. Should any difference of opinion, on any question relating to Police administration, arise between the District Superintendent and the Magistrate of the district, it is the duty of the District Superintendent to carry out the Magistrate's instructions, and to request the Magistrate to refer the point under dispute for the orders of the Commissioner, who will decide all such references, communicating, when necessary, with the Inspector General. Any officer of the Police who is dissatisfied with the decision of the Commissioner may submit his case to the Inspector General.

11. It must be borne in mind that, with the exception of the Magistrate of the district, no magisterial officers, whether in charge of a subdivision or not, are vested with any controlling authority over the Police. As Judicial officers they will try all cases brought before them on the formal complaint of a private party. If a subordinate Magistrate is of opinion that, in any case

coming before him, the proceedings of the Police have been illegal, or evince negligence, or want of intelligence, he will report the matter for the information of the Magistrate of the district.

12. Every prisoner must be forwarded from a Police station direct to the nearest Magistrate having jurisdiction, and must not be sent to the next superior officer of Police.

13. The powers of a Magistrate vested by law in the Inspector General, will be exercised, so far as may be necessary, in the absence of a Magistrate, only for the preservation of the peace, the prevention or detection of crime, or the apprehension or detention of offenders.

14. The Police superannuation fund shall be formed from the following items :—

“Police superannuation fund,”
how formed.

1st.—A deduction of half an anna in the rupee from the monthly pay of all Police officers of a class not entitled to a pension under the Unconvenanted service pension rules.

2nd.—Fines imposed for neglect or misconduct of Police officers, under sections 7 and 29 of Act V of 1861 ; and fines imposed by Magistrates on drunken persons, or on persons convicted of assault on Police officers.

3rd.—Proceeds of sale of useless and worn out equipments or articles of clothing provided for the use of the Police by the State.

15. It will be the duty of all Magisterial officers to keep up a separate register of all fines imposed by them under the third head. The fines realized will be sent to the officer in charge of the district treasury, who will credit the amount, under its proper heading, to the Police superannuation fund as hereinafter directed. At the close of each month the Magistrate of the district will send to the District Superintendent an abstract

from the registers shewing all the fines thus imposed in his district. No fines can be credited to the fund until the money has been actually realized; and when the order is appealable, until the appeal has been finally disposed of.

16. No charges on the superannuation fund are to be made without the sanction of the Government previously obtained. Rules as to the period of service and other conditions entitling members of the force to pensions or gratuities from the fund will be published separately.

Assets of "superannuation fund" how brought to account.

17. The following order of Government in the Financial department lays down the mode in which the fund is to be brought on the books of the treasury and finance departments.

No. 1214.

Extract from the proceedings of the Government of India in the Financial department, Simla, under date the 6th July 1864.

Resolution.

On a review of the existing arrangements for bringing to account the assets of the Police superannuation fund, the Governor-General in Council is pleased to issue the following instructions for general guidance throughout India :—

1. The authorized stoppages from pay on account of the fund are to be invariably deducted by the treasury officers from the pay abstract, and the net amount, only, paid to the District Superintendent.

2. The receipts of the fund, from other sources, which may be paid into a treasury by officers of Police, will also be credited by the treasury officers in their monthly cash account under the head of "Police superannuation fund," and an abstract of the entire monthly credits will be furnished by the Deputy Auditor and Accountant General, each month, to the Inspector General of Police.

A combined account of receipts and charges will also be prepared half-yearly by the Deputy Auditor General of the province, and furnished as may be directed by the Local Government.

3. Under this arrangement the remittance of stoppages and other realizations of the income of the fund, from one treasury to another, or to the Inspector General of Police, by means of transfer receipts, will be unnecessary, and such remittances are hereby prohibited.

4. Further, all cash balances of a Police superannuation fund which may be on hand in the Police department, or in deposit in private banks, will be paid into a Government treasury, and all Government securities or other stock in which any assets of a Police superannuation fund may be invested, will be entrusted to the Deputy Auditor and Accountant General, who will report for the information of Government all such transfers of stock.

5. When the accumulations in any province amount in the aggregate to five hundred rupees, they will be transferred by the Deputy Auditor General to a book debt account bearing interest at $4\frac{1}{2}$ per cent., but without the issue of promissory notes. The interest will be calculated half-yearly, and the account will be rendered to the Local Government or Administration, to be published in the Local Government gazette, or to be otherwise dealt with as may be directed.

6. These instructions supersede the orders on the same subject communicated in Financial department resolutions, No. 5823, of the 11th May 1861, and No. 94, dated 17th February 1862.

18. Any refunds of assets so credited must be charged to deposits, and if the actual deposit has been remitted to Rangoon, the charge must be made against the next deposit which is placed at credit of the fund.

Duties of a
Goung.

19. The Goungs (or Yazawut Goungs) are village Police officers exercising Police powers over the whole or a portion of a Thoogyee's or Kyun-oke's circle. They are appointed and removed by the Deputy Commissioners of districts, by whom also they are paid. But they conduct their duties under the supervision and control of the District Superintendent of Police.

20. It is the duty of the Goungs to report instantly to their immediate superior and to make inquest into all cases of murder, wounding, burglary, theft, tumultuous assemblage, affray, and other heinous offences occurring within their jurisdiction; and to apprehend and deliver to their immediate superior, persons accused or strongly suspected of having committed these offences, or of intention to commit them, and persons of suspicious character not having any ostensible means of livelihood.

21. Their superior officers to whom they will immediately report will be the Police officer in charge of the station or outpost within whose Police tract their circle is included.

Duties of a
Kyay-dan-gyee.

22. The Kyay-dan-gyees, or heads of villages, are in Police matters subordinate to the Goungs, to whom they will report all crimes occurring within their knowledge.

23. Goungs have no fiscal powers whatever, and cannot be called on by the Thoogyees of circles to assist in either the assessment or collection of the revenue.

24. They also have no judicial powers of any description, but they will obey all orders, and execute, or cause to be executed, all warrants and processes addressed to them by the Police officer to whom they are subordinate, or by the judicial officers of the township or district.

25. Any Goung who may wilfully exceed, or abuse his powers, shall, on conviction before a judicial officer, be liable to fine, or imprisonment, or both, as provided in the Indian Penal Code.

26. Deputy Commissioners of districts will keep the Superintendents of Police, working in their districts, informed of all casualties and appointments among the Goungs as the same may occur from time to time.

27. The Kyay-dan-gyee of a village is, as his name imports, the principal tax payer in the same, not being otherwise in Government employ.

28. The appointment of Kyay-dan-gyees rests with the Deputy Commissioner of the district, who will be guided in his selection by the known status of the parties in their villages, the general wish of the villagers, and the recommendation of the Thoogyees of their circles, as submitted through the Myo-oke of the township in which the village may lie.

29. The Deputy Commissioner, on appointing or confirming a man in his position as Kyay-dan-gyee, will furnish the Superintendent of the Police in his district with a memo. of his name.

30. The Kyay-dan-gyee of every separate and distinct village containing 10 or more houses in which there is no salaried Yua-Goung appointed, is exempted from the payment of capitation tax, as provided in section 21 of the Revenue rules (Pegu), in consideration of his performing certain subordinate Police duties, which, from the custom of the country, devolve on him in the absence of a Yazawut Goung.

31. It is the duty of all Kyay-dan-gyees to report to the Yazawut Goung of their circle, having authority over their village, all cases of heinous crime such as Police officers are competent to

enquire into and take cognizance of, and as described in column 3 of the schedule annexed to the Criminal Procedure Act.

32. They will also do their utmost to immediately apprehend any parties in their village who may be guilty of committing such crimes, and hand them over to the nearest Police post or to the Yua-Goung, whichever may be closest, and any proper expenses incurred by them in doing this will be paid them out of the treasury.

33. Whenever the Thoogyee of the circle may come round for the purpose of assessing or collecting tax, the Kyay-dan-gyee should be in attendance on him as long as he is in his village, for the purpose of giving him all necessary information connected with the cultivated land, or other revenue subject of his village, but he will on no account be called on to himself undertake the preparation of any assessment roll, or collect any money, which are duties the Thoogyee alone is responsible for.

34. Except for the purpose of reporting crime or placing criminals as above noted in the hands of the Police, the Kyay-dan-gyees will not be liable to be called away from their villages, unless where required on regular summons.

GENERAL POLICE FUND.

This fund under Act V of 1861 has been abolished. All amounts now standing at its credit to be transferred to credit of "Police," vide letter No. 3194 dated 30th November 1865, from the Financial Secretary to the Government of India.

1st March 1866.

		or Assistant its in charge of—	Martaban. Amherst. Rangoon. Akyab. Prome. Tavoy. Bassein. Toung-oo. Mergui. Myanoing. Ramree. Sandoway.

with reference to the foregoing notification the Chief Commissioner has been pleased to lay down the following rules:—

The magisterial powers above conferred on certain officers of police under section 6 of Act V of 1861, are to be exercised only in the absence of the ordinary magistrate of the district, or subdivision, or town, and so far as may be necessary for the preservation of peace, the prevention of crime, and the detection, apprehension, and detention of offenders in order to their being brought before a magistrate, and so far as may be necessary for the performance of the duties assigned to them (officers of police) by Act V of 1861.

That is, officers of police, vested with magisterial powers, shall exercise those, when it may be necessary to do so, only to the extent of all preliminary steps previous to offenders being brought to trial; but their powers do not extend to the trial and punishment of these offenders, as no such provision is contained in section 6 of the above Act.

Thus officers of police, vested with magisterial powers, are thereby authorized to issue warrants for the apprehension of criminals whom they may not, as officers of police, be authorized to arrest without warrant, they may, as magistrates, take the deposition of witnesses, whose death may be considered imminent; they may, as magistrates, commit accused persons to jail on satisfactory evidence taken and deposed to: all these to be exercised in the absence of the ordinary magistrate, and only in order to offenders being brought eventually before him.

Officers of police, invested with magisterial powers, are *not* thereby authorized to try and punish members of the police force, under section 29 of Act V of 1861.

PART IV.—REVENUE.

SECTION I.—LAND REVENUE.

RULES AND DIRECTIONS

FOR THE REVENUE ADMINISTRATION OF THE PROVINCE OF BRITISH BURMA.

1. The officers appointed for the administration of revenue affairs in the province of British Burma, are, Revenue officers in the province.

The Chief Commissioner exercises the powers of the Board of Revenue, and has a general control over all revenue affairs throughout the province.

2. Each district in the province is divided into townships, under Myo-okes. These are divided into circles, under Thoogyees, which are again sub-divided into village-tracts, comprising one or more villages. Thoogyees are nominated by the Deputy Commissioners, subject to the confirmation of the Commissioner. The necessary qualifications for these officers are a good character and ability to read, write, cipher, and measure land. Yua-Goungs are appointed for police duties, but may occasionally assist the Thoogyees. Kyay- Districts how divided and administered.

dan-gyees also within their own village tracts will assist the Thoogyees in revenue duties generally. In districts where the ancient custom of hereditary succession in the office of Thoogyee has existed, it will be still maintained as a general rule. All original circles will remain intact, and be entered separately in the registers and assessment rolls. The appointment of Myo-oke is subject to the approval of the Government of India.

Land tax. Portions of country to have fixed rates of assessment.

3. Every circle and every village-tract, has a distinct boundary. The paddy lands of each village-tract are divided into portions of country called "pyeng" or "queng," each bearing a distinctive name, and these constitute the smallest portions upon which a separate rate of assessment will for the present be fixed. The rate of assessment per acre will vary in amount according to the fertility of the soil, the situation of the land, the average local price of grain, and facility for intercourse with markets. Lists of these rates are to be retained in the office of the Deputy Commissioner, and in the office of the Myo-oke of the township within which the circle is situated. Gardens, orchards and miscellaneous cultivation will, in the several districts of the Pegu and Arakan divisions, pay for each acre the highest annual rate put upon paddy land in the same circle. In the district of Martaban, of the Tenasserim division, miscellaneous cultivation is assessed at the highest rate put upon paddy land in the same circle. The rates on gardens and orchards will be as follows:—

16 annas, i.e. 43560 = 1 acre.

5. Land under “toungeya” cultivation in the hill circles of the Pegu division will not be assessed by measurement. In the districts of Rangoon, Bassein and Myanoung each male engaged in the cultivation of toungeya land will pay a tax of one rupee per annum, without reference to the area of the land he tills, or the number of separate plantations cultivated. In the other districts of Pegu and in the Arakan division, each family

of toungeya cutters, if all work together at one or more toungeya plantations, pays one rupee for the whole family. A family for this purpose includes all residing under one roof, or having a common hearth.*

It is to be understood that toungeya cultivation in the plains generally and especially in the delta of the Irrawaddy should be discouraged. Valuable fruit and other trees are still destroyed by toungeya cultivators in that part of the province.

In the Arakan division toungeyas are generally liable to measurement, and pay tax according to their area at one rupee per acre. In the Akyab district toungeya cutters in the following circles only pay a tax of one rupee per man, and not by the area of the toungeya.

CIRCLES.

1 Mro-theet-khyoung.	12 Koladan.
2 Kullah-pan-zin.	13 Rala-ashe (East of Tsar- ai-khyoung.)

In the district of Ramree toungeyas are everywhere measured except in the township of Aeng.

* Land situated in jungle tracts in the low lands on which various products are raised, and which cultivated spots are generally termed "toungeya," though not so strictly, are to be classed as "miscellaneous cultivation." Lists should be prepared of those hilly and remote circles in each district, to which only the toungeya rates will apply, and within which no measurement of land for miscellaneous cultivation assessment will be made.

In the district of Toung-oo, certain tribes east of the Sittang river pay a yearly sum all round, without accounting for capitation or other tax separately. They are required to give no returns except a list of chiefs of tribes or villages, and the gross annual amount payable by each.

In the district of Sandoway toungyas are liable to measurement in the following circles only:—

6. It is the duty of the Thoogyee carefully to measure the land of each cultivator of his circle, and to deliver, through the Myo-oke of the township, to the Deputy Commissioner, on or before the 14th lazan of Tabodwe in each year, the following returns which are to be countersigned by the Myo-oke. Duties of a Thoogyee.

1st.—A land register (form No. 1)* showing the land under cultivation in each pyeng or queng of his circle separately; the names of the owner, or of the late owner, if after the death of such owner the land has remained undivided in his family, together with that of the actual cultivator and taxpayer for the year, and mortgagee, if any.

2nd.—A similar register (form No. 2) of land under cultivation not paying revenue.

3rd.—An assessment roll (form No. 3) showing the amount of land, and all other items of regu-

* Forms are not inserted in this Manual.

lar tax due by each tax-payer in his circle. From this the Deputy Commissioner will cause to be prepared separate receipts for presentation to each person, with a distinct specification of each item of demand (form No. 4.) These will be forwarded to the Thoogyee, through the Myo-oke of the township, who will cause them to be presented as soon as possible, to each individual paying tax, the date of presentation being noted on the back of the receipt. The revenue will then be collected and an endorsement made by the Thoogyee of the amount received, with date of payment, and signed by two witnesses. In this roll will be included the land tax levied in towns and suburbs on land occupied but not built upon (form No. 3 A.) A return of all land, paddy land, garden or otherwise, included in No. 3, as paying tax during the year which has been cultivated in consequence of embankments constructed by Government or by private enterprise, (form 3 B.)

4th.—A list of all new lands taken tax free for a term during the year, with the name of each person who has received them (form No. 5.)

5th.—Statements showing the increase or decrease, or both, of every description of cultivation in his circle, during the year, with a brief explanation of the causes of either, (forms No. 6 and 7 are given as a guide for this return.) The Thoogyee is bound to retain copies of all registers, rolls, statements, &c., rendered by him.

6th.—In estimating whether land is to be measured and entered in the assessment roll, as cultivated land liable to tax, the Thoogyee or land measurer will be guided by the fact whether seed has been sown therein during the year on account

of which the assessment is to be made. Should the seed, say the paddy seed, have been sown broad cast, or the plants have been planted out, and the produce subsequently have been destroyed by flood, drought, or otherwise, the land over which the seed has been cast, or on which the plants have been planted, will be entered in the assessment roll as liable to revenue, but will be noted for remission, either in full or in part according to circumstances. This rule is not intended to be applied to land which has received exemption from tax for a term of years, and which term is still unexpired.

7. Should the Deputy Commissioner consider it necessary to test any of the land measurements, as entered in the assessment roll delivered in by the Thoogyees, care should be taken to ensure, if possible, that all enquiries having that object in view, shall be concluded before the close of the official year, (30th April.) If this be not attended to much delay will occur in closing the annual settlement papers.

Thoogyees' measurements to be tested if necessary before the 30th April.

8. Each cultivator will pay land tax for each of the fields he tills through the Thoogyee in whose circle such field is situated.

Land tax through whom to be paid.

9. Land shall pay tax once in a year only according to its class, as paddy land or otherwise. The assessment on palm and other trees which, from peculiar circumstances, cannot be included in the area of land paying revenue, will be entered separately in the assessment roll (No. 3) as well also the tax on dhanee plantations, and other items as shown in the form annexed. But all fruit trees should if possible be included in the area of land assessed at a fixed rate per acre. The rates of tax to be annually levied on trees

Remission of land tax.

10. All applications for remission of tax must be made, in the first instance, to the Myo-oke of the township, who will, after personally enquiring into the truth of the alleged grounds for remission, forward the application with his report thereon as early as possible to the Deputy Commissioner, or to the Assistant in charge of the township. All applications for remission of tax on account of drought, inundation, blight, or other injury to a crop or on account of failure of crop shall be made while that crop is still on the ground or they will not be received, unless good cause is shown for the delay. Applications for remission on account of wrong measurement, or other causes unconnected with the condition of

the crop, shall be preferred within ten days from the date of the revenue receipt being given or tendered to the person from whom tax is demanded by, or by authority of a revenue officer. If the period of ten days be exceeded, such applications shall not be received unless upon good cause being shown for the delay.

For remission statement see form No. 26.

GRANTS OF WASTE LAND.

11. Thoogyees are empowered to make grants of small portions of waste or jungle land for paddy cultivation, not exceeding five (5) acres, and to grant exemption from tax on account of land which has lain fallow, under the following regulations :—

Regulation for grants of waste lands by Thoogyees and by Deputy Commissioners.

1st.—On a person making application for waste or jungle land, it will be the duty of the Thoogyee to go to the spot himself and make a sketch of the ground, or, if he cannot do this, measure it and note its boundaries. He will then attach a notice to the zayat, or other public place of the nearest village, and otherwise in the most effectual manner make it generally known that an application has been made for the piece of ground, and that unless cause is shown to the contrary, within fifteen days from the date of notice, it will be granted to the applicant. Should no other claimant appear within the time stated, the Thoogyee will give the applicant a grant of the land, (form No. 8) and enter the grant in a register of the same form to be kept by him for the purpose. The grants will be numbered annually by each Thoogyee, commencing at the beginning of each Burmese year. From this statement the return No. 5 is to be made out.

2nd.—A preference shall be given by the Thoogyee in granting waste land under this rule to the owner or owners of the fields nearest to and

adjoining on such waste land, if he or they make application for it within the term of 15 days stated in the notice required to be published by para. 1 of this section.

3rd.—Lands granted under this section shall be exempted from assessment for different periods, according to the description of jungle upon them at the time of making the grant, agreeably to the following table :—

Class.	Description of jungle.	Period of exemption.
1	Short grass, if the land has not been cultivated within five years	1 year.
2	Long grass, if the land has not been cultivated within five years	2 years.
3	Reeds, elephant grass, bushes, whether the land has been cultivated before or not	3 years.
4	Small trees not exceeding one foot in diameter at 2 cubits above the ground	5 years.
5	Large trees exceeding one foot in diameter at 2 cubits above the ground...	7 years.

4th.—Land which in order to be cultivated requires to be thoroughly drained, or strongly bund-
ed to prevent the entrance of water, shall be en-
titled to the same period of exemption as land of
the 5th class, without reference to the description
of jungle upon it. Land which requires the con-
struction of bunds, or dams for irrigation, at an
expense probably not exceeding four rupees per
acre of the quantity of land reclaimed or irrigat-
ed by means of the bund or dam, shall be enti-
tled to the same period of exemption as class 3rd,
without reference to the description of jungle
upon it.

NOTE.—The period of exemption is to be counted from the expiration of the Burmese year in which the order is given, if that happens less than four clear months before the close of the year.

5th.—Land may be taken under this section from the Thoogyee for the purpose of planting fruit trees and other plants, and shall be exempted from assessment for periods according to the following table, without reference to the description of jungle upon it at the time of its allotment :

Class.	Description of trees and shrubs.	Period of exemption.
1	Cocoanut, betelnut, mayan, spice and all palm trees, except dhanee	12 years.
2	Dorian, mangostein, dhanee, mango, jack, and all other fruit trees, except plantain	8 years.
3	Plantain, pan vine, sugar-cane,* neeba (madder,) &c.	1 year.

6th.—The class to which any land, applied for under clauses 3 and 5, shall be considered to belong, is to be determined by the description of jungle existing, or fruit trees or shrubs planted on three-fourths of its area, or as near that proportion as possible. When plantains are planted *bonâ fide* only as shade to cocoanut, or other trees, they will not be considered as forming a plantain garden.

7th.—A Deputy Commissioner may make grants of land not exceeding 100 acres in extent each, on the terms above-mentioned. They will be registered by him in a form similar to that prescribed for Thoogyees. (No. 5.)

8th.—No person shall, for the present, have new lands on the above terms of exemption, otherwise than as an addition to his existing cultivation, or unless he has never cultivated land before. The circumstances however, of a culti-

* This does not apply to that description of sugar-cane which is an annual plant.

vator leaving part of his existing cultivation *bond fide* fallow, will not preclude him from obtaining fresh allotments of waste or jungle land.

Granted lands claimed by former owners.

12. Should any one afterwards claim land granted under these rules to another party, he must file a suit in the civil court for its recovery, but in the event of a decree being given in his favor, the land will not be made over to him until after the ensuing harvest.

Intention of reclaiming lands to be notified to Thoogyee.

13. The intention of reclaiming, or of trying by a suit to reclaim land on the principles declared in section 12, must be made known to the Thoogyee before the full moon of Kasong in each year, otherwise it will not, unless with the consent of the cultivator, be made over until after the ensuing harvest.

Abandonment of land after period of exemption provided against.

14. Should any cultivator, having received land under section 11, abandon the land so allotted him after the period of exemption, under circumstances which prove that he had used the land only for the profit to be gained from it during such period of free occupancy, and not for purpose of ulterior cultivation, he shall be liable, at the discretion of the Deputy Commissioner, to assessment in arrears for the period of exemption, either at the full or reduced rate for land of similar description in the circle in which the land is situated.

Period within which granted.

15. All land which has remained uncultivated, or for which land tax has not been paid for a period of twelve years, shall be absolutely at the disposal of the State, and no person shall be competent to raise any claim to, or upon such land by reason of any former occupancy of, or right of property in the said land on the part of himself, his ancestors, or his family or any person whatever.

16. Persons who have once made over to a Thoogyee or other revenue officer, or abandoned, that is to say, allowed one year or more to elapse without either by themselves or their assigns cultivating or paying land tax on any land previously in their possession, or to which they have any hereditary claims, shall ordinarily be held to have thereby forfeited all their right, title and interest to such land thenceforth and for ever. But if the land so made over or abandoned shall have been for twelve years in the uninterrupted possession of the person who abandons it, or of the party or parties from or through whom he derives his title to the said land, or of such party or parties and himself in unbroken succession, then such persons, his heirs, or assigns, shall have the right of reclaiming the said land at any time within twelve years after the said land shall have been made over or abandoned as aforesaid. Provided however, that if the party to whom the land shall have been allotted by the Thoogyee or other Government officer, shall have planted fruit trees, strongly bunded it, or otherwise invested capital in the permanent improvement of the land, the person wishing to redeem it, shall only be allowed to do so, on paying to the person in occupation the value of such improvements, to be determined either by private arbitration or a suit in court as may be agreed upon by the parties.

Right of reclaiming abandoned land under certain circumstances.

This rule will not be applicable to lands granted by Government under the Resolution of his Excellency the Governor-General in Council, dated the 17th October 1861, or subsequent rules for purchase of land.

17. When land has been mortgaged and the mortgagee placed in possession, the right of the mortgager to redeem shall cease and determine at the expiration of twelve years from the date originally fixed for foreclosure, or of twelve years

Possession of mortgaged land for 12 years gives right of ownership.

from the date of the mortgage, if no fixed period for foreclosure was originally agreed upon, mortgagees, their heirs or assigns, in possession of land, the right of redemption of the mortgage on which has expired as aforesaid, shall be considered to have acquired the twelve years' proprietary right which under the preceding section entitles owners, their heirs or assigns, to reclaim their land within twelve years after they shall have once abandoned it.

Intention of
abandoning land
to be reported to
Thoogyees.

18. All owners of land, whether coming under the above descriptions or not, shall report to the Thoogyee in writing before the full moon of Kasong in each year, if there is any portion of the land previously held by them which they do not intend to cultivate themselves, or for which they have not provided a cultivator during the next season. The Thoogyee may then make over the land so left in his hands, or any portion of it, so that the portion be in one parcel, to any other person applying for it, subject to the right of redemption laid down in section 16. Unless a holder of land reports to the Thoogyee as above directed, he will be required to pay the tax on his land, whether he cultivated it or not. After having reported to the Thoogyee his intention not to cultivate, he can only again take up the land, or any portion of it, by authority from the Thoogyee, who may, if the land be not already made over to another party, restore it or any portion of it, in one parcel, to the original holder.

CAPITATION TAX.

Returns connected with
capitation tax.

19. On or before the 15th lazan of Wagoung of each year, the Thoogyee will deliver in the following returns:—

1st.—A return (form No. 9) showing the amount of capitation tax payable by each person liable to

such tax, the number of males exempted, and the reason of their exemption. From this the Deputy Commissioner will cause to be prepared separate receipts (form No. 10) for presentation to each individual by the Thoogyee, who on receiving them will proceed without delay to collect the tax, as directed in the 3rd para. of section 4. In the towns of Bassein, Myanoung, Prome, Thayet-myo and Toung-oo, an annual land assessment is levied in lieu of capitation tax. For the collection of the assessment separate rules have been drawn up. In the town of Rangoon a similar assessment is levied under rules passed by the Government of India, and in the towns of Akyab and Kyouk-phyoo under Act XXXV of 1852, passed by the Legislative Council of India. In these towns the return will be in the form of the register attached to form No. 9, and a receipt in that form will be tendered to the tax payer. This return is to be prepared by the Goungs of quarters, or Thoogyees.

2nd.—Statements showing the increase or decrease, or both, in the amount of the capitation tax in his circle during the year, with a brief explanation of the cause of either (forms 11 and 12.)

3rd.—A population and general statistical return, (form No. 13.)

20. The present yearly rates for capitation tax are as follows:—

Tax when to be paid.

21. Capitation tax will be levied only once in the year, during or about the month of Wagoung, and will be paid to the Thoogyees in whose circle the person liable to the tax resides. The rolls should be closed at a given time, and no after-assessment be allowed.

Persons exempted from capitation tax.

22. All females, all males, being less than 18 or more than 60 years of age, Government servants, religious teachers, all students and school masters, and those who from blindness, insanity, disease, or otherwise are incapable of gaining their livelihood, are exempt from capitation tax. The Kyay-dan-gyee of every village containing 10

or more houses in which there is no salaried Yua-Goung appointed, is also exempted from the payment of capitation tax in consideration of his performing certain subordinate police duties, which from the custom of the country devolve on him in the absence of a Yua-Goung.

23. Application for remission of tax on any of the above grounds must be made, in the first instance, to the Myo-oke of the township, who will forward it with his report thereon, as early as possible to the Deputy Commissioner or Assistant Commissioner in charge of the township. All applications for remission must be made within ten days from the date of the revenue receipt being given or tendered to the person from whom tax is demanded by, or by authority of, a revenue officer. If the period of ten days be exceeded such application shall not be received, unless good cause be shown for the delay. In all cases of verbal applications for remission of tax, the Myo-oke will note the reason alleged for the application, and not require a written petition, but include the nature of the application in his own report.

Application for exemption.

24. All immigrants from any part of the British territory, other than the province of British Burma, will be exempted from capitation tax for five years. Immigrants from foreign countries will also be exempted for five years. On their arrival the Thoogyee will submit to the Deputy Commissioner a register of their names and former abode (form No. 14,) when a certificate of exemption will be granted them (form No. 15.) All documents from Thoogyees to come through Myo-okes. It is the duty of the officer in charge of the district to enquire at intervals, whether all immigrants receive their exemption certificate or not. In his tour into the interior this should be carefully attended to.

Exemption of immigrants.

TAX ON FISHERIES.

Fisheries of
two classes.

25. The fisheries are divided into two classes :

1st.—Sea, or salt water fisheries.

2nd.—Inland fisheries.

The first class contains those for which operations are carried on in the open sea by boats, or in salt water creeks and estuaries.

The second comprises the different lakes, ponds, tidal creeks, streams or rivers, in which fish are captured by nets, screens, traps, or other contrivances. In some cases a defined tract of country, land and water, is rented out. In others mere license is granted to use fishing implements.

Tax how as-
sessed upon sea
fisheries.

26. The tax upon the sea fisheries is assessed upon the traps called “dameng” and “hmyoon.” Each fisherman before commencing the season’s fishing, that is to say on or before 1st lazan of Ta-soung-mong, is required to report to the Thoogyee of his circle the number of traps he intends to employ during the season.

Assessment roll
of fisheries.

27. The Thoogyee will prepare and submit to the Deputy Commissioners, through the Myo-oke of the township, an assessment roll of fisheries, both sea and river net tax, in form No. 16. The Deputy Commissioner from this roll will cause to be prepared in his office tax receipts (form No. 17) which will be forwarded to the Thoogyee for realization. The amount of tax on these fisheries will also be entered in abstract under column 15 of form 3. Turtle banks will also be entered in this return.

Thoogyee res-
ponsible for col-
lection of tax.

28. The Thoogyee will be held strictly responsible for the due collection of this tax, and he will be required personally to ascertain that all persons employed in sea or river fishing have

been registered, and that the full number of traps and nets in the possession of each person is assessed.

29. As soon as practicable after the preparation of the assessment roll, the Thoogyee will forward to the Deputy Commissioner statements showing the increase or decrease in this tax during the year, with a brief explanation of the causes of either (forms 18 and 19.)

Statements of
increase and de-
crease.

30. Any fisherman attempting to evade the payment of this tax by not reporting himself to the Thoogyee, or understating the number of traps used by him, will be liable to double assessment upon all traps found, or which he can be proved to have had in his possession during the fishing season, or any part thereof; and all the fish and ngapee he may have caught or manufactured will be liable to confiscation. He will likewise be liable to fine.

Penalties for
evasion of tax.

31. Of the inland fisheries the lakes and ponds will be rented out by the year, on or about the full moon of Kasong, to the inhabitants of the villages in their immediate vicinity, by the Deputy Commissioners or such officers as they shall authorize to make the arrangement. No fishery can be sub-let without the sanction of the Deputy Commissioner. The lease may at any time be cancelled by the order of the Deputy Commissioner or any superior authority, on good cause appearing for such measure. The boundaries of inland fisheries, whether ponds, lakes, or parts of tidal and other streams, must be distinctly laid down and are not to be extended on any account. No streams should be dammed up which are required for navigation; nor should dams for fisheries be allowed where cultivation is injured by the water inundating adjoining land. Certain small creeks in each district should be left free and not included in fisheries. It must be considered as a fixed

Tax on inland
fisheries, lakes
and ponds.

principle that fisheries, if too much extended, become a source of oppression to the people. The renter or renters of a fishery having defined boundaries merely acquire the right to take fish within that boundary for sale, but all the neighbouring inhabitants have the right to take fish therein for their own consumption and for their own household, free of any charge whatever. It is impossible to lay down fixed rules applicable to all cases for regulating this assessment. The Deputy Commissioners must exercise their discretion in fixing the amount to be levied annually on each fishery with reference to its ascertained value and productiveness. The amount will be paid to the Myo-oke of the township, or direct to the treasury of the district, as may be found most convenient. Each fishery should be reduced in extent as much as possible in order that poor people may be able to take some as renters. These fisheries are not to be put up to auction. As a general rule one half of the amount of tax should be taken at the time when the amount of rent is agreed upon, and security be taken for the remaining moiety, which should be paid six months afterwards. The detail of lake and pond fisheries is to be sent annually to the Commissioner in form 20. For form of license see No. 21.

Large creeks
not to be rented
out.

32. Creeks and streams of a large size, used as main channels for navigation, should not be included in fisheries rented out. In such streams persons may take out licenses to use nets at the sanctioned rates. In those creeks and streams which can without public inconvenience be rented out as fisheries, and in which dams or weirs may have been permitted to be constructed, suitable openings for the passage of boats must be left.

Penalty for
preventing cattle
drinking water
at a fishery.

33. Any person who shall prevent, or attempt to prevent any one from bringing his cattle to drink water at any lake, pond, stream or other

water, on the ground that it is included in a fishery which is rented from Government, or any person who shall receive or who shall demand any sum of money for permitting cattle to drink at any place rented as a fishery, shall be liable to the penalties described in rule 50, and, if the renter of a fishery, his license shall be forthwith taken away, and all sums he has paid to Government for such fishery shall be forfeited, as well as any dams, weirs, or other works he may have built within the fishery.

34. In the event of the parties who have executed a bond, agreeing to pay a fixed rent for the fisheries of lakes and ponds, failing to pay the amount of any instalments due, the lease of the fishery for the remainder of the year will be disposed of in such manner as shall be found most advantageous. The lessee will be responsible for any loss incurred.

Renters failing to pay tax due.

35. All applications for remission of this tax on account of losses sustained through an unfavourable season, bursting of bunds, or other causes, must be preferred ten days at least before the last instalment falls due to the Myo-oke of the township, who, after personally enquiring into the truth of the alleged grounds for remission, will forward the application, with his report thereon, to the Deputy Commissioner or other authorized officer.

Remission of tax.

36. For the right of fishing on the seaboard and in the main rivers and creeks of the province which are not included in the boundaries of fisheries referred to in rule 31, a tax is placed upon the nets used, the annual rates for which are shewn in the following table :—

Tax upon nets used in inland fisheries other than lakes and ponds, &c.

* NOTE.—These are nets used in the Tavoy district, and the privilege to use them is given out to parties at different prices.

It is to be understood that all licenses for nets and traps, and all leases of lakes and ponds terminate on the 30th April, at whatever period of the year they may have been granted. But in some districts the termination of the period for inland fisheries depends upon local circumstances, which must be allowed for.

37. Applications for licenses to use nets are to be made through the Thoogyee and Myo-oke of the township, where the privilege is proposed to be exercised. Half the amount is to be paid in advance. The Myo-oke will then report to the Deputy Commissioner, who will issue the license. The amount of tax due upon all nets is to be collected by the Thoogyee of the circle where the fisherman follows his calling. The annual statement of inland nets made by the Thoogyee, will be in the same form as for sea fisheries (No. 16), an abstract of which is to be given in column 15 of form No. 3.

Applications
for licenses.

38. All fisheries situated in townships or circles, where, from the nature of the country, the system of toungya is pursued, shall be free. No licenses for nets or otherwise shall be required to take fish in streams or ponds in such circles. The fishing in the streams of remote places also should be free, although the system of toungya does not obtain.

Fisheries in
hill townships
excluded.

39. Any person found fishing without a license within any inland fishery which has been leased out, will be liable to fine, and, in default of paying the same, to imprisonment or to attachment and sale of his personal property in payment of the same. Such portion of the fine or proceeds of the sale of property as may appear proper to the officer deciding the case, may be paid to the party injured. If no property, or insufficient, be found, imprisonment will be carried

out with abatement at the discretion of the officer presiding.

Penalty for poisoning fisheries.

40. Any person putting the bark called "hoon," or any poison in a fishery, will be subjected to a fine of rupees five hundred, and if done by the farmer himself, or with his knowledge and consent, the fishery will also be resumed.

SALT TAX.

Rates of salt tax.

41. This tax is levied upon the pots employed in the manufacture. The annual rates at present are as follows :—

In the Pegu division—each earthen pot holding about 6 gallons, 12 annas in the Rangoon and 8 annas in the Bassein district ; each iron cauldron, 5 rupees or at the above rate, according to capacity. In the Myanounng district, 1 rupee for each iron cauldron, and 2 annas for each earthen pot, if used.

In the Tenasserim division—each earthen pot producing on the average 1 viss of salt at the boiling, 8 annas ; each iron cauldron rupees 2-8 or at the above rate, according to the capacity of its production. In the Martaban district the rate is 6 annas on each earthen pot. In the Arakan division the rate is 8 annas for each earthen pot.

Manufactories to be visited by Thoogyees.

42. In the month of March of each year, the Thoogyee will visit each of the salt manufactories in his circle, and ascertain by a personal examination the number of pots and cauldrons in each furnace. He will include them in his general assessment roll. The Deputy Commissioner will cause to be prepared and delivered to the Thoogyee, for collection, a tax receipt (form No. 22.)

43. As soon as practicable after the preparation of the assessment roll, the Thoogyee will forward to the Deputy Commissioner, statements showing the increase or decrease in this tax during the year, with a brief explanation of the causes of either (form 23 and 24). Statement of increase and decrease.

44. Any manufacturer who fraudulently conceals from the Thoogyee any of the pots or cauldrons used by him in the manufacture of salt, shall be charged double assessment on all pots or cauldrons which may be found, or which may be proved to have been in his possession during the season, and all the salt he has manufactured will be liable to confiscation. He will likewise be liable to fine. Penalties for evasion of tax.

BEES WAX.

45. In form 25 is given an assessment roll for bees' wax. Bees' wax.

GENERAL RULES.

46. Any person who fails to pay any amount of tax due by him within ten days after a demand being made, and a receipt offered by, or by order of a public officer, or any person who, after diligent search cannot be found in order that the tax bill or receipt may be presented to him, shall be liable to the following processes :— Processes against revenue defaulters.

1st.—A written order to be issued by the Myoke of the township on the complaint of the Thoogyee or by the Thoogyee himself, if so authorized by the Deputy Commissioner, warning the party that unless payment of the amount of tax, with all expenses incurred by reason of the default, be made within ten days from the date of notice being served upon him, or affixed to his dwelling, or otherwise published, he will be liable to arrest and imprisonment in the civil jail, and his property, real and personal, will be attached.

and will be liable to be sold in satisfaction of the demand.*

2nd.—At the expiration of the time fixed, if the defaulter still neglect to pay or to appear, he may be apprehended by the Myo-oke and forwarded to the Deputy Commissioner to be confined in the civil jail, the whole of his property will at the same time be attached; his personal property will, after due public notice of not less than ten days, be sold first, and if that is insufficient to satisfy the demand, then, and not otherwise his real property also.

3rd.—After the sale of real and personal property the defaulter shall not be liable to further imprisonment, or to arrest, if he shall satisfy the Deputy Commissioner of the district that he has not wilfully concealed or made away with any of his property, but has done his best to pay the amount due.

Commission paid
to Thoogyees.

47. The amount of commission payable to Thoogyees upon the revenue collections, is ten per cent. on all collections up to rupees 6000 within the year. If the collections exceed that amount, half the above rates of per centage will be allowed on the surplus.

Accounts, &c.
to be prepared by
the Thoogyees.

48. Every Thoogyee, on his appointment, will report in writing to the Deputy Commissioner what documents he has received charge of from the person he has succeeded, and for what year. It is the duty of the Deputy Commissioner, and of the Assistant Commissioners, and of the Myo-oke, to see in their tours of inspection that the revenue returns, &c., are carefully preserved by those under their authority.

* By regulation 5 of 1812 section 14 (Bengal Code) ploughs and other implements of husbandry, cattle employed in agriculture and the tools of artizans are not subject to distress and sale on account of arrears of rent. The powers of distraint possessed by a collector in the regulation provinces are the same as those possessed by a private proprietor in the provinces against his tenants. See regulation XXVII of 1803, section 14 clause 2.

49. Any Thoogyee who omits to measure land in the proper season, or who delivers false or incorrect returns or accounts, or who in any way neglects his duty, or delivers any tax bill to any one but the tax payer, or any other than the person duly authorized to collect tax, or disobeys any lawful order of his superiors, will be liable to fine or suspension or dismissal from office, at the discretion of the Deputy Commissioner.

Punishment for neglect of duty and other offences by Thoogyees.

50. All complaints against Government revenue officers or persons employed in the revenue department, of making or being accessories to unauthorized collections and receipts on any account, or of corruptly receiving more than is due to Government, shall be received and decided by the Deputy Commissioner, or may be referred by him for trial to his Assistant. Persons convicted of such offences shall be liable to be sentenced to refund the amount exacted, with damages equal to double the amount as well as a heavy fine to Government proportionate to the circumstances of the offender, which decree shall be enforced by the process prescribed in other cases; and if the property of the offender, which shall be applied in the first instance to make good the damages and costs adjudged to the party injured, shall be in any case insufficient to make good the fine to Government, the officer before whom the case may be tried may order the fine to be commuted to imprisonment for such period, not exceeding six months, as on consideration of the case may appear to him adequate to the offence.

Penalties for illegal exaction of revenue or otherwise.

51. Any person who maliciously or vexatiously makes a false complaint, or resists any process in the revenue department, may be punished, by the officer before whom such complaint may be decided, with fine.

Punishment for false complaints and resistance of process.

52. All complaints relative to arrears of Government taxes or disputed revenue accounts

shall be received and tried by the Deputy Commissioner in his capacity of revenue collector. A Deputy Commissioner may refer any such cases for trial to his Assistants, or he may empower an Assistant to try them without a special reference in each case.

Complaint in revenue matters before whom to be preferred.

53. All complaints connected with arrears or exactions of rent on land, or of dispossession of lands, houses, premises, wells, water-courses, or disputed boundaries beyond the limits of the Town Magistrate's jurisdiction, shall in like manner be heard and decided by the Deputy Commissioner in his capacity of revenue collector, provided the complaint is preferred within three months from the date on which the cause of action arose. The Deputy Commissioner will summarily execute his decrees in cases connected with rent or land under clause 2, rule 46. No appeal shall be allowed in such cases; but any party may, if dissatisfied with the decision, institute a regular suit in the civil courts to set it aside, and to obtain the rights or redress to which he considers himself entitled. Cases under this rule may be referred to Assistants for trial.

Language of record in revenue cases.

54. Cases tried by Deputy Commissioners or their Assistants in their capacity of revenue officers, may ordinarily be recorded in Burmese; the final order, that is the decision and the reasons for it, will, however, be invariably written in English by the officer deciding the case, if that is his vernacular language, and a translation filed on the record. It will, however, be at the discretion of the officer trying the case, to record the proceedings of cases under section 50 in English, where he may consider it advisable to do so.

Costs in revenue cases.

55. In all cases tried in the revenue department, the officer deciding them may award expenses of suit at his discretion, and if the expenses are not paid may levy the amount by dis-

traint of the personal property of the party liable.

56. All orders of the Assistants and Extra Assistants are appealable to the Deputy Commissioner, and all orders of the Deputy Commissioner are appealable to the Commissioner, provided the appeal is preferred within fifteen days from the date of decision. This rule applies to all orders and decisions passed in abkaree or other revenue cases. The Commissioner may also, if he sees fit, revise any order of a subordinate, although the period of appeal be passed.

Appeals.

57. An Assistant may be placed by the Commissioner in charge of a township with the powers of a Deputy Commissioner, but under his general supervision.

Assistant may be placed in charge of township.

58. All holders of grants of lands in British Burma shall comply with such instructions as they may from time to time receive from the Deputy Commissioner of the district in which their grant is situated, relative to furnishing returns of population, of capitation tax, and ~~other~~ statistics relating to their grants. Such returns shall be furnished in the same form as those required from the circle revenue officers. Any grantee refusing or neglecting to give such returns when duly required from him, or furnishing wilfully false returns, will be liable to fine.

Return to be furnished by grantees of land.

59. Any grantee or other person who shall offer obstructions to the measurement of any land in his grant, or of other land in his possession after the measurement has been duly authorised by the local revenue authorities, or shall incite other persons to do so, shall be liable to fine and to payment of all expenses incurred through his act of obstruction.

Penalties for obstructing the measurement of land.

60. The amount of all fines imposed under these rules, except such as are imposed under section 50, and the amount of all expenses ordered to be paid, may, if not paid by the party or parties lia-

ble, be levied by the sale of his or their personal property ; or if not paid and no property be found, or property insufficient to cover the full amount of the fine, the party may for each case be sentenced to imprisonment in the civil jail for any period not exceeding three months.

Punishment for
breach of revenue
rules.

61. The breach of any provision in, or the omission of any act required by any of these rules, will, when no amount of fine or other specific penalty is assigned in such rule, subject the offender to a fine not exceeding two hundred rupees for each offence, and in default, to imprisonment not exceeding three months.

Revenue re-
turns when to be
forwarded.

62. In the office of the Deputy Commissioner, the revenue returns will be made out according to forms 26 to 37 inclusive, and forwarded to the Commissioner with the revenue report, as soon as practicable after the close of the official year. The returns of sea and river nets as No. 16, and and of lake and pond fisheries No. 20, are also then to be forwarded, being full copies of those received from the Thoogyees. They may be in Burmese.

Population re-
turns.

63. The Deputy Commissioner will also forward on the 1st January of each year the population return of his district, (form No. 39) and return of emigrants and immigrants (form No. 40.) These are made out from the returns of the Thoogyees of the previous month of Wagoung (vide rule 19.)

Returns of mis-
cellaneous re-
ceipts.

64. A return of all miscellaneous receipts and collections will be made to the Commissioner annually, in the form No 43.

Appeals.

65. All appeals from decisions or orders in the Revenue department by the Commissioner of a division, must be made to the Chief Commissioner within thirty days from the date of such decision or order. Copy of the order or decision appealed against must be filed.

The Chief Commissioner may call for the proceedings of any revenue court or office in the province of British Burma, although no appeal may have been made therefrom, and may pass such orders thereon as appears to him proper.

66. All appeals made from orders or decisions passed by the Deputy Commissioner in revenue cases, must be made to the Commissioner of a division on a stamp of the value of one rupee, and appeals or special appeals to the Chief Commissioner must be on a stamp of the value of two rupees. Any other petition or application in revenue matters to the Commissioner of a division must be on a stamp of the value of eight annas, and to the Chief Commissioner on a stamp of one rupee. Copy of any order or decision filed must be on a stamp of the value of eight annas.

Stamps.

No petition, application or appeal made to any revenue officer, except a Commissioner or Chief Commissioner, need be on stamped paper.

67. The time within which appeals may be made under these rules will apply also to appeals made against orders in the abkaree department, and against orders under other rules connected with revenue or taxes. Appeals in the abkaree department, and against orders passed under other rules connected with revenue, must be made upon stamped paper of the same value as is fixed for appeals made to Courts of appeal under these rules.

Appeals against orders in the abkaree department, and against orders under other rules.

68. The annual returns to be made to the Chief Commissioner, are marked 1 to 13 in the book of forms. These returns should be despatched so as to reach the Chief Commissioner's office not later than the 1st of September of each year. A complete report on the revenue of the division for the year is to accompany the statements. Directions regarding the principal subjects which are to be treated of in the report are added in a minute.

Returns to be made to Chief Commissioner.

RULES

FOR THE EMPLOYMENT OF ASSISTANTS AND EXTRA ASSISTANTS OF THE FIRST CLASS IN REVENUE ADMINISTRATION, WHEN STATIONED AWAY FROM THE HEAD-QUARTER STATION.

1. Every Assistant or Extra Assistant stationed away from a head-quarter station of a district, will have a certain number of circles or townships placed under him. Such circles will be designated by the Deputy Commissioner with sanction of the Commissioner of the division.

2. All assessment rolls, either for capitation tax or for land, will be delivered to the Assistant; he will inspect them, and is responsible for their correctness. He is expected to make personal inquiries into the entries, so as to satisfy himself whether they are, on the whole, correct or not. He will then certify on the assessment roll that he has inspected it, and inquired both as to persons and land entered therein, and will add whether it is correct or not, with his signature.

3. He should proceed personally round a village to ascertain if the entries in the capitation tax roll are correct, and he should measure a certain proportion of the land of each village to ascertain if the area has been correctly entered.

4. After having signed the roll he delivers it to the Thoogyee to take in to the Deputy Commissioner.

5. With due diligence such inquiries will not delay the delivery of a capitation assessment roll into the Deputy Commissioner's office beyond the middle of August. In regard to the assessment roll for land tax, the Assistant, in as many cases as possible, should superintend the first construction of it by the Thoogyee, and not wait un-

til it has been completed. By thus scrutinizing the formation of the land assessment roll, the Thoogyee will be instructed in his duty, accuracy will be obtained, and delay prevented. This roll should always be in the Deputy Commissioner's office by the middle of February.

6. All collections of revenue will be made by the Thoogyee as heretofore, but he should be directed to refer to the Assistant for orders in all cases of difficulty.

7. Each Assistant should be empowered to receive and inquire into all cases of application for remission of tax, within the circles under his orders. He should forward his proceedings, with a distinct recommendation on each case, to the Deputy Commissioner, or he may be empowered by the Commissioner to pass final orders in such cases.

8. The Assistant should be empowered to grant certificates of exemption from capitation tax to all new settlers. He should countersign the Thoogyee's report of such cases to the Deputy Commissioner, as the register of them must remain in the Deputy Commissioner's office. It is his duty to search out cases and require the Thoogyee to make the report regarding the arrival of the new settlers.

9. The Assistant Commissioner will also see that the Thoogyee correctly prepares the registers of jungle lands newly brought into cultivation. He will countersign these registers. The population returns he will also countersign.

10. The Assistant generally has a complete control over the Thoogyee in revenue affairs, but he will never take charge of cash collections. For the safety of these the Thoogyee is alone responsible.

11. All land measures should work under the direct orders of the Assistant Commissioner, or Extra Assistant in the circles under them.

MINUTE

ON THE PREPARATION OF THE ANNUAL REVENUE REPORT FOR EACH DIVISION OF BRITISH BURMA.

Rangoon, 1st September 1864.

1. On the 1st May 1863, the Chief Commissioner issued a minute relative to the preparation of the annual revenue report. It is now reprinted to be attached to the revenue rules with such alterations as have become necessary..

2. Revised forms marked from 1 to 13 have been issued, and copies are now attached.* It is expected that the annual report from each division will reach the Chief Commissioner in (all) August.

3. The entries in form No. 1 will suggest the main points to be noted in the report. First in importance is the land tax. The area of the cultivated land for the year and the assessment thereon, both as compared with last year, should be carefully noted and explained. Any increase or decrease in cultivation, should be fully and clearly explained, as well as increase or decrease in assessment or tax. It is clear that if there has been an increase in the rates of tax per acre, there may possibly be an increase in money, while there is a very dangerous decrease in area. It is necessary therefore to explain everything. Then, the explanation should be separate for each kind of cultivation;—paddy land, gardens, miscellaneous, or toungya. In some parts of the country, in the plains, toungya cultivation is very pernicious, and should be prevented as much as pos-

* NOTE.—Forms not inserted in this Manual.

sible. Proposed remissions on account of land should be very fully and carefully explained, the area of the land and the description of land on account of which remission is asked, and the amount of tax due thereon being distinctly stated.

4. It is frequently supposed, that when there is an increase of cultivation, little or no explanation is required. This, however, is not the case. Explanation in such cases is desirable with respect to future years. For increase sometimes comes from fortuitous circumstances, which are not likely soon to occur again. It should be stated in each year, what area of the assessed lands is land which had been exempted in the previous year on account of being new, and for how many years it had received exemption. Land cultivated in previous years and thrown out of cultivation, for whatever cause, should be noted on.

5. In districts where assessment is made by quengs, and rates vary on blocks of land close adjoining each other, it is essential that the Deputy Commissioner should watch the effect of those rates closely. In the report it should be noticed, whether the existing rates on a queng show, from a total increase or decrease of cultivation therein, that the rate is probably too high or otherwise. In such case every inquiry should be made with a view to lowering the rate if deemed necessary. The general result of an alteration of rates, as it has tended to affect the cultivated area, should be carefully shown, and the former and existing rates per acre be mentioned.

6. In districts where leases have been granted for a term of years, they should be fully noticed in the annual report. Whether they have succeeded or not, and whether the payments have been prompt, and an increase of cultivation by the lessees actually brought about.

7. Any sale of waste land, under the Government rules, should be carefully noticed, as well as grants under rules of Government for more than one hundred acres.

8. The next heading of importance is the capitation tax. The explanations required will refer not only to the money collections, but to the number of persons taxed. Further explanations as to increase and decrease should be given, whether arising from increase of rate of tax, new settlers becoming liable to tax, or natural increase of population. For towns, where a house tax exists in lieu of capitation, similar explanations are required.

9. The number of tickets of exemption issued to new comers should be carefully entered, and notice taken of the countries the settlers have come from. It is, of course, understood that no person passing from one district or division of British Burma to another, is considered as a new settler.

10. A full report is also to be made regarding fisheries, explanation being given both of increase and decrease. It should be stated whether the lakes and ponds have been rented out to the neighbouring villagers, or put up to auction. The latter method should never be resorted to. It is far better to lose revenue, than to have recourse to a plan which throws the people on the tender mercies of a speculator for one of the necessities of life.

11. Of late years the revenue derived from salt has been very uncertain. In a country having a capitation tax, it is not considered desirable to raise a large revenue from salt, still the duty on the manufacture must be carefully seen to, and full explanations be given as to the rates of excise and the causes of increase or decrease.

12. The forest produce also is to be fully explained.

13. As a special report is made on customs, details are not here entered into as to what is required for this heading in the annual revenue report. But full explanation is to be given regarding increase and decrease of duty.

Export and import of jade stone and all articles over a quarter of a lakh in value, to be noted separately.

14. The Abkaree is also to be fully explained. It should be shown of what separate items this branch of the revenue is composed; whether opium (net profit on sale of the drug and farmer's rent) and other drugs, spirits, toddy and so on, and how the revenue is taken, whether by an excise duty on the consumption per gallon, or by farming out the right to sell. Any increase or decrease will, of course, be fully explained.

15. All other items of revenue will be also carefully explained, and I need hardly say demand particular care and attention.

16. The local funds will be carefully separated from the imperial revenue. These also should be lucidly explained; in the town of Rangoon some licenses for sale of liquor have lately been made over to the municipal fund. The local funds' reports and returns, though submitted at the same time as the revenue report, are to be entirely distinct and separate. Forms for the annual account of local funds are under preparation. A general memo. of the accounts demandable, will continue to be made at foot of return No. 2, in order to get an idea of the whole revenue demand for the year at a glance.

17. There are many other small items of revenue which will require remark, but which it is not necessary here to particularize. Dunnoe

plantations in Rangoon and Bassein to be worked at toungya rates.

18. The report should enter very fully into the state of the balances due on the revenue for the year. The balances due on 31st July, or date of report, should be shown separately for each item, as :—

Land.....	rupees
Capitation.....	„
Fisheries.....	„
Abkaree.....	„ and so on.

19. Full explanation should be given as to the causes of delay in receiving payment and the probabilities there may be of all being still collected.

20. A separate paragraph should be devoted to a report on persons who have been put into jail for not paying their revenue. A return in form No. 12 is required.

21. Finally, the above directions are given as a guide to what is absolutely essential, and should be noticed in the report. But each division will no doubt present many peculiar subjects worthy of notice.

22. Each Commissioner is requested to report fully on the merits of officers in charge of districts.

23. In all cases where embankments have been formed to exclude inundations, or weirs built to retain water, or canals to convey it for irrigation, or drains dug to carry off superfluous water, the same should be noticed in the annual revenue report, and the effect of those works on agriculture should be detailed.

In order to do this, the Deputy Commissioner of the district should be instructed to direct the Thoogyees of circles to enter separately in their land assessment rolls, and to be distinctly specified, land cultivated in consequence of such works and improvements. In the revenue report the area of such land should be carefully mentioned,

and all interesting or useful information regarding it, be placed on record.

It will not be necessary, however, to show separately in the rolls, land which has been cultivated in consequence of embankments, or other works, unless the quantity so cultivated by reason of any one work would exceed one hundred acres. In all cases it should be stated whether such works have been constructed by Government, or otherwise.

4. This cess will be collected by the Thoogyees at the same time as the land or other tax, and will be paid by them into the treasury in a separate sum; each Thoogyee to show clearly how much is paid on account of imperial revenue, and how much on account of cess.

5. After the Thoogyees' accounts have been checked in the district revenue office, the different sums will be carried to credit; the regular revenue in the imperial treasury books, and the cess in a separate form, as below described (form A.)*

8. The different amounts to credit of each fund will be shewn separately in plus and minus memoranda at close of the month as those of other local funds are now shewn.

* NOTE.—Forms not inserted in this Manual.

Commissioner, on the recommendation of the Commissioner of a division, a sum to credit on account of one heading may, on good cause being shewn, be loaned or transferred to another.

11. Deputy Commissioners can sanction and carry out works, the outlay on which will not exceed rupees 200—all works requiring a greater outlay, must be sanctioned by the Commissioner of division.

12. A quarterly return, form D, of the works carried out, and of the amount expended on each, will be sent by each Deputy Commissioner to the Commissioner for transmission to the Chief Commissioner's office, on the 1st May, 1st August, 1st November, and 1st February.

13. All propositions regarding establishments of schools, of district dâks, village watchmen, or of clerks or accountants required for keeping up books, &c., involving the monthly pay of an establishment, must be submitted for approval of Commissioners of division prior to sanction.

14. In all schemes proposed, it must be distinctly kept in view that the money must be devoted to those measures from which the greatest advantages will accrue to the people who actually pay the cess.

15. Thoogyees will be entitled to the usual rate of ten per cent. on the collections of cess, or if their revenue collections exceed 6,000 rupees, to 5 per cent. on cess collections, and to latter per-centage in excess of rupees 6,000 when both revenue and cess exceed that amount.

16. The cess is to be levied on the eighth, and not on the sixteenth, part of a rupee—thus if the tax amount to rupees 1-3, the cess will be leviable on rupees 1-4.

FOR THE SALE OF UNASSESSED WASTE LANDS, AND
FOR THE REDEMPTION OF THE REVENUE OF
SUCH LANDS ALREADY GRANTED FOR A TERM OF
YEARS, IN THE PROVINCE OF BRITISH BURMA,
TOGETHER WITH A SCHEDULE OF UPSET PRICES
PER ACRE.

Published in the Calcutta gazette; under notification No. 150 A. Foreign department, dated Simla, the 30th June 1863.

*To which is added a list of lands reserved
with reference to rule No. 25.*

1. All unassessed waste lands in which no right of proprietorship or exclusive occupancy is known to exist, or to have existed and to be capable of revival, are available for purchase under these rules, unless specially reserved under rule 25.

2. No greater quantity of land than five thousand acres shall be sold in one lot, except with the express sanction of the Chief Commissioner. If for special reasons, in particular localities, a lower maximum area than five thousand acres should be determined upon, it will be duly notified hereafter. There is no prohibition against the same person applying for two or more lots of land, provided that each application comprises no more than five thousand acres, or such other maximum as may be prescribed.

3. Every lot shall be compact, and shall include no more than one tract of land in a ring fence; and when the lot touches a public road or navigable river the length of the road or river frontage shall not exceed one-half of the depth of the lot; provided that if, for any special rea-

sons, the Chief Commissioner shall see fit to relax this restriction it shall be competent to him to do so. No lot will be sold unless it has been previously surveyed and demarcated, or until it shall have been surveyed and demarcated, in consequence of an application for purchase. The survey need only be in sufficient detail to ensure the ready identification of the boundaries of the lot, and to ascertain its gross area. If on completion of the survey it shall appear that the area of the land applied for exceeds the prescribed maximum, the excess shall be excluded.

4. If it should appear from the survey or otherwise that the application does not comply with the conditions, the Deputy Commissioner may call for an amended application, and in the event of a revised application not being given in within fifteen days, the application shall be held to be cancelled and the deposit shall be returned to the applicant, less the amount of expenses actually incurred for advertisement, survey, and the like.

5. Applications for the purchase of waste land shall be made to the Deputy Commissioner of the districts, and every application shall contain the following particulars :—

1st.—The estimated area of the land applied for.

2nd.—The situation of the land and its boundaries, as accurately as can be ascertained.

Applications shall immediately be entered in a register in the form A. attached to these rules.

6. If the Deputy Commissioner be satisfied that the land applied for is available for purchase and within the conditions prescribed in rules 2 and 3, and if it has been previously surveyed and demarcated, he shall advertise the lot for sale on a given day at an upset price of not less than one rupee an acre on the whole area. The adver-

tisement shall be published in the Deputy Commissioner's office, in the Court of the principal Judicial officer of the district, and at the revenue and police posts nearest to the property, as well as in any villages on the land or adjoining thereto.

An advertisement shall also be published in the local newspaper. The form of advertisement is given in annexure B. A sum of 16 rupees to cover all estimated expenses connected with advertising shall be paid by the applicant in advance at the time of application.

7. If the Deputy Commissioner be satisfied as above, and if the land have not been surveyed, he shall cause it to be surveyed and its boundaries demarcated, the estimated cost of such survey and demarcation being first deposited by the applicant. On the completion of the survey, the advertisement of sale shall be published as above.

The sum to be deposited will include the estimated cost of clearing the boundaries for survey, but is not, under any circumstances, to exceed four annas an acre.

8. The day of sale to be named in the advertisement shall not be less than thirty days from the date of publication, and the sale shall be held at the Deputy Commissioner's office. The sale may be postponed, if in the Deputy Commissioner's judgment it should be necessary, due notice being always given of the date on which the sale will be held.

9. Sales shall be held quarterly on the 2nd of May, 2nd of August, 2nd of November, and 2nd of January, or on the first day after those dates on which the Deputy Commissioner's office may be open. Where a sale is deferred the notice of the date fixed for it will be given by an advertisement at the Deputy Commissioner's office. If

the day to which the sale is postponed be more than fifteen days after the date originally fixed; the date to which it is deferred shall be published in the manner prescribed by rule 6, for the original notification of the day of sale. In this case all expenses of advertisement shall be borne by the Government.

10. If before the sale no claim of proprietary or occupative right in the land be preferred, the lot shall be sold by auction to the highest bidder above the upset price, or to the applicant at the upset price if there be no higher bid.

11. The cost of survey and advertisement will be payable by the highest bidder in addition to the upset price. Immediately on the conclusion of the sale the highest bidder (if he be not the original applicant) shall deposit a sum equal to four annas an acre on the whole area of the lot. In default of immediate payment of this deposit the Deputy Commissioner may at once re-sell the lot. If he thinks it necessary he may refuse to recognize any bid which is not supported by the deposit of the amount required by this rule. Immediately a sale is made it shall be entered in a register in the form C. annexed.

12. On payment of one tenth of the purchase money and of all expenses of survey, demarcation, advertisement and sale, the purchaser shall receive a deed in the form D. annexed, signed by the Deputy Commissioner, conveying to him the lot, in full hereditary and transferable proprietary right free for ever from all demand on account of land revenue; but subject, nevertheless, to all general taxes and local rates imposed by law and to the provisions of Act 23 of 1863, and any other legislative enactment which may hereafter be passed for disposing of the claims of third persons subsequently preferred.

13. If before the day of sale a claim of proprietary or occupative right in any part of the land be preferred, the Deputy Commissioner shall investigate the claim, and if satisfied that it is groundless shall reject it and proceed with the sale.

14. If on investigation any such claim should appear to be well grounded the Deputy Commissioner may either reject the application for purchase of the lands or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner.

15. The Commissioner may direct the Deputy Commissioner either to reject the application or to proceed with the sale of the land either unreservedly on the conditions prescribed in rule 2, or if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusive of the area in which such right exists. If the application for purchase of the land be rejected the amount deposited shall, at the discretion of the Court, and according to the circumstances of the case, be forfeited or returned, less the amount of expenses actually incurred for advertisement, survey and the like.

16. On being put in possession of the lot the purchaser shall be bound to erect as many substantial boundary marks of masonry, and within such given time, as the Deputy Commissioner may think necessary, failing therein the Deputy Commissioner may cause the boundary marks to be erected and recover the cost thereof from the purchaser under the ordinary procedure for recovery of arrears of revenue.

17. If the land be purchased by any person other than the applicant, the estimated cost of

survey deposited by the applicant shall be returned to him.

18. The purchaser may, if he choose, pay the whole of the purchase money when the lot is sold or the deed delivered to him. Or if he choose he may pay a portion, not being less than ten per cent., at the time of sale, and the remainder in instalments at any future time, not being more than ten years from the date of sale. In the latter case simple interest at the rate of ten per cent a year will be charged on the unpaid portion of the purchase money, and the whole lot will remain hypothecated as security for the full discharge of the amount, including principal and interest, and be liable to sale by order of the Deputy Commissioner, if the said amount be not paid within the stipulated period.

19. The interest due for any year or part of a year under the above rule shall be payable on or before the 15th of May, and if the amount be not paid on that date the Deputy Commissioner may realize the amount by sale of the lot, under the rules in force at the time for sale of estates on account of arrears of revenue due from other estates. Any balance of the purchase money which may not have been paid up before the 15th of May of the tenth year following that of the sale, may be realized in the same manner as an arrear of interest outstanding on that date. The proceeds of the sale shall be applied, in the first instance, to the payment of costs of sale, and to the satisfaction of the demand of Government; the surplus shall be payable to the late registered proprietor or proprietors on their joint receipt.

20. If the purchaser fails to pay one-tenth of the purchase money and all other expenses within three months from the day of sale, the lot will

be put up to sale again on the same conditions as before and sold at the risk of the first purchaser, whose deposit will also be forfeited.

21. The upset price as given in the annexed schedule will be calculated on the whole area of the lot without any deduction on any account whatsoever.

22. If it should at any time be found that the same land has been included in more than one lot, it shall be held to belong to the lot first sold, and all subsequent sales shall, as regards such land, become null and void. In the event of any dispute regarding the boundary of two or more adjoining lots, the Deputy Commissioner may, on the application of any one of the parties, re-adjust the boundaries of the lots, and his decision shall be final. The price paid by any subsequent purchaser for land thus excluded from his lot will be refunded to him with simple interest at ten per cent.

The sum to be refunded will be calculated on the average price paid per acre, excluding the cost of survey and advertisement.

23. Grants which have already been given for a term of years at progressively increasing rents will be treated as if the land were permanently settled, if the holder wishes to redeem the future land revenue at the highest rate fixed for any year during the currency of the grant, provided there is no right of occupancy other than that of the lessee or that derived from him. The rates for redemption will be calculated according to the market rate of four per cent. Government securities at the time being, as directed in paragraph 75 of the despatch of Her Majesty's Secretary of State, dated 9th July 1862.

24. All sales of waste land and all the redemptions made under these rules in each division will be reported immediately to the Chief Commissioner in the form of an abstract of the entry from register B. prescribed in rule 11 above; but no sale of waste land once made by a Deputy Commissioner in conformity with these rules will be disturbed by any higher executive authority.

25. Reserves of inland fisheries and forest land, of land for the growth of fire-wood near towns and stations, of building sites, parks, recreation grounds, and the like, and of land required for other special purposes are not to be sold under the rules without the express sanction of the Chief Commissioner. A list of these lands is under preparation by the Chief Commissioner, and when it has been approved by Government it will be published. In the districts of Prome, Myanounng, Rangoon, Bassein, Toung-oo, Martaban and Amherst certain tracts of forest land are reserved and no grant will be made therein until the Deputy Commissioner shall, on each application, have communicated with the Deputy Superintendent of Forests, who will refer to the Superintendent and that officer and the Commissioner of the division will proceed under the special rules marked E. attached hereunto.

26. Lands for the purchase of which application has been made under the resolution of the 17th October 1861 will, if such application were duly registered, be dealt with in accordance with the terms of the said resolution so far as the law allows.

All proceedings taken in conformity with the resolution of 17th October 1861 will be recognized, and the pending proceedings will be continued under the provisions of that resolution. Where

the application has only been made and registered, the next step will be the issue of the advertisement required by paragraph 17 of the resolution. If the advertisement has already been issued and the term of it has expired, the Deputy Commissioner will proceed to give the applicant a certificate of allotment, under paragraph 18, unless others have come forward with offers to purchase the land, in which case the lot must be put up to auction under paragraph 30 of the resolution. In all such cases the sales will be regulated by the present rules.

Rules for redemption of land tax.

27. Under paragraph 26 of the despatch of Her Majesty's Secretary of State, dated the 9th July last, a discretion is granted to Government to allow redemption of the land revenue in respect of "lands required for dwelling-houses, factories, gardens, plantations, and other similar purposes."

Under this authority the Chief Commissioner will be prepared to receive applications from the proprietors of lands of the nature above indicated for the commutation, by a single payment for ever, of the land revenue assessed thereon.

28. The price to be paid will, under paragraph 75 of the same despatch, be fixed according to the actual value at the time being of Government four per cent. securities.

29. Under paragraphs 35 and 75 of the despatch, redemption will only be allowed where the revenue is found to be fairly assessed, otherwise "a full, fair, and equable rent" will be imposed as a necessary preliminary to the measure.

No. 154.

The 30th March 1865.

NOTIFICATIONS.

THE following rules for the grant of waste lands in British Burma, alternative to the rules published in notification No. 150 A, dated 30th June 1863, are published for general information.

A. COLVIN,

Offg. Under Secy. to Govt. of India.

REVISED RULES.

1. The waste lands in the province of British Burma shall be classed as follows, and being the property of the State, the local revenue officers are, subject to the confirmation and orders of the Governor General in Council, hereby authorized to give grants of the same to all persons rent-free, and liable to future assessment for the periods, and at the rates, specified underneath. No deduction will be made on account of sites of houses, water-courses, roads, and so forth.

Classification of land.

Class.	DESCRIPTION OF JUNGLE LAND.	Duration of tenure free.	Rates of future assessment and duration thereof.			Total.

On the expiration of the complete term of years of each grant, as above set forth, it shall be at the option of the grantee to demand a settlement of the land revenue of his grant in perpetuity at the rate of one rupee and a half for each acre, per annum, payable to Government, and such payment shall be the maximum rate payable for ever, as land revenue for such grant.

Class of three-fourths to determine class of whole.

2. In determining the class to which each grant may belong, and to avoid vexatious investigations, the character of three-fourths of the area, or as near that proportion as is possible, is to be considered as that of the whole.

The revised rates per acre payable under rule 1, will be declared applicable to all grants made under the rules for Pegu, passed by the Governor General in Council on the 6th March 1861, and under the rules for Arakan, passed on 5th September 1839, and amended on the 5th October 1841, on the grantees agreeing to pay the following cesses to form local funds, viz :—

For Roads,	1 per cent.
„ Education,	1 „
„ District dak,	$\frac{1}{4}$ „
„ Village chowkeedarree, ...	$2\frac{1}{4}$ „

Total 5 per cent.

on the annual amount of assessment for the land revenue, and in addition to such land revenue.

All grants made under these present rules will also be liable to cesses of the same amount for the same objects, and these cesses shall be payable at the same time that revenue is payable by the owner of the grant, and default will be treated in like manner as default in payment of land revenue.

Grants not to be more than 10,000 acres.

3. No grant for agricultural purposes is to be made under these rules of a greater extent than ten thousand (10,000) acres, or within a distance

of four miles from the nearest part of the boundary of the jurisdiction of the town Magistrates of Rangoon, Maulmain, and Akyab, and from the Court houses of the Deputy Commissioners of all other districts. Within the above limits it shall be competent for the Deputy Commissioner, with the sanction of the Commissioner to make grants under these rules, not exceeding (100) one hundred acres, and upon such conditions as, with reference to the nature and situation of the land applied for, may be specially fixed and determined, these rules being taken as a general guide for the terms.

4. Provided that no grant of land shall, unless under special sanction of the Commissioner, be made to include any portion of a fishery leased out by Government, or any right of way thereto, nor any teak forest, nor any land used for the manufacture of salt, nor any navigable streams, nor land below high-water mark on the sea shore, or on *tidal streams*; and provided also that the right of Government to resume portions of any grant required for public roads or other works, shall, in all cases, be, and is hereby reserved, and such resumption shall be made under Act VI of 1857, or other similar Act in force at the time such grant shall be made.

Grant not to include fisheries, forests, &c.

5. All lands assigned under these rules shall be the hereditary property of the grantees on the fulfilment of the prescribed conditions, and on the execution of a bond binding themselves to abide by the prescribed conditions, they shall be entitled to a grant to the above effect.

To be the hereditary property of the grantee.

6. Should any grantee neglect to fulfil the terms specified in these rules, or any portion of them, the grant is to be resumed, but no resumption is to be made without due notice having been served on the grantee, requiring him to show cause why his estate should not be resumed;

Resumption of grants.

after which proceedings are to be held, and the decision to be formally recorded in each case, the same being open to appeal in the usual manner.

Grantees to be
entitled to fresh
leases.

7. Grantees who have not purchased exemption from payment of land revenue, or who have not made engagements for a maximum assessment under rule 1, shall, on the expiration of the periods stated in the last column of the table annexed to rule 1, viz :—

1st class	64 years.
2nd „	48 „
3rd „	32 „
4th „	16 „
5th „	8 „

be entitled to a new lease of *not less* than 20 years' duration, and on the expiration thereof to further renewal for a similar period, and the same on the lapse of each successive lease, provided that they agree to fair terms of assessment.

Revision of
settlement.

8. On the renewal of each lease granted after the expiration of the period noted in the last column of the table of rule 1, the local revenue officers may, with the sanction of the Governor General in Council, revise the settlement, and if the grantee has not accepted the maximum rate in perpetuity provided for in rule 1, may impose upon the area of each grant an assessment not exceeding the average rates of assessment per acre of lands of similar quality in the circles immediately adjoining the grant; and in like manner should a grantee be able to satisfy the local revenue authorities that his assessment is higher than the average tax of similar lands, in the adjoining circles, assessed on account of Government, he will be entitled, at the renewal of his lease, to an abatement of his assessment for the term of the said lease, so that he shall not be required to pay more than the fair average assessment of the lands in his vicinity.

9. A lease or grant having once been confirmed by competent authority, no alteration of rate of assessment is to be allowed until its expiration. Rate of assessment not to be altered before expiration of lease.

10. On the revision of any settlement consequent on the renewal of a lease, the rate of assessment is, in the case of a difference arising between the grantee and the assessing officer, to be fixed by three arbitrators, one of whom is to be nominated by the grantee, one by the assessing officer, and the third by the two individuals appointed above, and their decision is not to be reversed, except by the order of the Governor General in Council. Assessment to be fixed by arbitrators.

11. Grants of 200 acres and upwards shall not be placed under the authority of the Thoogyee or other manager of the circle in which they may be situated. When grants of the above extent become liable to assessment, each grantee shall be entitled to a separate settlement direct with the local revenue officer, whatever may be the amount of assessment. Grants of 200 acres not under Thoogyee.

12. Grantees are hereby required to furnish each cultivator annually with a bill of demand, written in the Burmese language, specifying everything he is to pay, and he is entitled to receive a bond from the cultivator, promising to pay the amount. No suit regarding rent is to be entertained in Court except upon written agreement. Written rent bills and bonds required.

13. All applicants for grants must satisfy the local revenue officers that they possess the means of redeeming the lands required by them, or capital as per annexed scale:— Grantees to have capital.

1st class jungle,	rupees	15	per acre.
2nd	"	12	"
3rd	"	9	"
4th	"	6	"
5th	"	3	"

and if dissatisfied with that officer's estimate of their resources, they may, within three months, appeal to the Commissioner whose decision is to be final.

Register of
grants.

14. Every grant shall be registered in such manner as the Governor General in Council may direct, its situation, extent, and boundaries being duly recorded, and on every occasion of transfer of the proprietary right, subsequent to the expiration of the first lease, whether from the death of the former owner, from sale, or any other cause, the same is to be notified to the proper officer, and the cause of transfer, and the name of the new proprietor, registered. No proprietary right to the land or its rent shall be recognized by any Court in British Burma, unless the proprietor's name has been registered. When there are several shareholders in a grant, the names of all must be registered as the legal and responsible grantees thereof. They are jointly and severally responsible for the payment of revenue, and for all duties required from a grantee. The Deputy Commissioner in each district is *ex-officio* Registrar of grants made under these rules.

Transfer of
grants.

15. In cases of transfer by sale or assignment of a grant, the same is to be acknowledged by both parties in person, or by accredited agents, before the registering officer at the time of registry, and the registry is to be attested by the principals or their agents, and also by at least two competent witnesses whose names and places of abode are to be inserted.

Grant to be
surveyed.

16. A survey is to be made of each grant as soon as possible, and any person convicted of having fraudulently extended his boundaries, shall be liable to be deprived of the land he has fraudulently appropriated, and to a fine not exceeding one hundred (100) rupees for every acre so ap-

propriated. If the said fine be not paid, the amount will be leviable by distress, and the sale of his property, real and personal. Should the proprietor be dissatisfied with the first survey, he may have the land re-surveyed, on depositing the probable expense.

17. The grantee is responsible for the collection of capitation tax, from all persons liable thereto, under the revenue rules of British Burma. He also in his bond, taken under rule 6, will bind himself to observe the said rules. A grant under these rules will entitle the grantee to all mineral products found therein, but the said minerals will, except coal, which will be free, be subject to a royalty not exceeding five per cent. on the value thereof, whether manufactured or otherwise, within the grant where they have been found. The value of such mineral products shall be fixed, from time to time, in each case, by the Deputy Commissioner, the order for the said value being open to appeal and revision in the usual manner.

Settlers not exempt from capitation tax.

18. Any person who having obtained a grant of waste land in British Burma shall fail in the prescribed conditions, shall not be deemed eligible to receive another grant, unless he can satisfy the local authorities that the causes of his failure were entirely beyond his control.

Grantees who have failed to fulfil conditions not to receive other grants.

19. The land measure to be used for grants throughout the province of British Burma is as follows :—

Land measure.

SQUARE FEET.

226·875 = 1 pie.

2722·5 = 1 anna.

43560·0 = 1 acre,

R U L E S
FOR THE SETTLEMENT OF LAND REVENUE IN
THE DISTRICT OF RANGOON.

Dated 7th March 1865.

1. A settlement of all land revenue to be made for five or ten years.

2. Present rate of assessment to be retained.

3. The settlement will not extend to toungya, that will be paid for as at present.

4. The present rate in Rangoon extends to quengs, new land, that is all land lying waste taken during the five or ten years by leases, will not be measured or assessed. At the end of the five or ten years a new measurement to be made; whether the existing rates will then be continued, will be a matter of consideration.

5. Should a land-owner during the settlement abandon his land, for which settlement has been made, and go to take other land, he should still be required to pay on the land he has abandoned. But he shall not be allowed to take up new land under the settlement without the limits of the circle in which his leased land is situated.

6. A list of the cultivators or land-owners of each village, and what each man has to pay under the settlement to be made out. The area of each description of land to be entered therein. The form will be the same as the present assessment roll.

7. The date on which the settlement is to take effect in each village to be distinctly stated in the list of land-owners.

8. Each land-owner will be responsible for his own revenue only, and in case of death, his heir; should inevitable misfortune prevent a man cultivating the land he held at the settlement, pay-

ment will be remitted. Careful record should be made of such cases. The owner of the land is the person with whom settlement should be made, whether he cultivate it himself or not.

9. The existing rate per acre directed under the settlement will not be held to refer to land which has been granted under the rules passed by Government in March 1861, and to be found at page 213.

10. The area of each man's land to be taken as that entered in the assessment roll of 1863-64, or 1864-65, as may be found applicable, unless he objects thereto, a new measurement in such cases to be made at Government expense. Care to be taken that land-owners do not suffer any curtailment of their property under this rule.

11. In cases where all the land-owners and cultivators of a village tract agree to take a joint lease of their tract, it shall be granted to them, under the rules laid down at page 235. In leases of this description, Captain McMahon's form of proceeding and record to be adhered to.

R U L E S

FOR THE SETTLEMENT OF LAND REVENUE IN
THE DISTRICT OF TOUNG-OO.

Dated 8th October 1863.

1. A settlement of all land revenue to be made for five years. During the period of settlement no land of any kind to be measured for revenue.

2. The rates per acre payable to Government not to exceed those now fixed, whether for paddy land or otherwise, but a diminution may be made when necessary. The rates for gardens, orchards, and miscellaneous cultivation will be the highest rate for paddy land existing in the circle.

3. No land-owner who did not cultivate his land in 1224, A. D. 1863, or in any previous year since Pegu became British territory, will be called upon to declare whether he wishes to enter into the five years' settlement or not, he will have the option of cultivating his land free of tax for five years.

4. The settlement will not extend to toungya. That will be paid for as at present.

5. The present rates in the district of Toung-oo extend to quengs. New land, that is all land lying waste, taken during the five years' settlement, will not be measured or assessed. At the close of the five years a new measurement to be made. Whether the existing rates will then be continued will be a matter of consideration.

6. Should a man during the settlement abandon his land for which settlement has been made and go to take other land, he should still be required to pay on the land. But, as the settlement is only to be made with the full consent of each individual owner, any person may throw up his settlement or lease before the expiration of the term of five years.

7. A list of the cultivators of each village and what each man has to pay under the settlement to be made out; the area of each description of land to be entered therein. The form will be the same as the present assessment roll.

8. Any *bonâ fide* new cultivators coming in during the settlement to be allowed to cultivate new land and no question to be asked. This refers to any cultivator from any foreign or British territories, and to any person belonging to the district of Toung-oo or otherwise.

9. The date on which the settlement will take effect in each village to be distinctly stated.

10. Each cultivator will be responsible for his own revenue only, and in case of death his heirs.

Should inevitable misfortune prevent a man from cultivating the land he held at the settlement, payment will be remitted. Careful record should be made of such cases. The owner of land is the person with whom the settlement should be made, whether he cultivates it himself or not.

11. These rules will not be held to refer to land which has been granted under the rules passed by Government in March 1861, and to be found at page 213.

12. The area of each man's land to be taken as that entered in the assessment roll for 1862-63 unless he objects thereto. A new measurement in such case is to be made at Government expense.

13. In cases where all the cultivators holding land contiguous to one another are willing to take up a lease, it would be a good plan to let them elect one person to be answerable for the revenue of the whole. All the lands being considered one estate (see page 235.)

14. No land-owner is required to enter into the settlement except with his own free will and consent.

NOTE.—The above rules will henceforth be followed in the district of Prome, memo. 097 dated 29th September 1865.

GENERAL RULES

FOR GRANTING LEASES OF LAND FOR A TERM OF
YEARS IN THE PROVINCE OF BRITISH BURMA.

In circles or village tracts where the queng assessment has been completed, leases for ten years, or for a shorter period, if desired by the cultivators, may be granted on the following terms :—

1st.—The cultivators of the circle or tract to be leased shall agree to pay to Government annu-

ally for a fixed period of not more than ten and not less than two years, an annual rent which shall be fixed as the amount payable by the cultivators on the total area of their existing cultivation at the revised rates per acre imposed by the settlement officer in the queng assessment.

2nd.—During the period of the lease, all the waste lands within the settled tract which may be brought under cultivation by those who accept leases, shall be tax free.

3rd.—The annual rent agreed upon will have to be paid whether crops fail or cattle die, but if there be any very extensive disaster of the kind, due consideration will be shewn.

4th.—The principal inhabitants of the leased tract should form a committee to see that the cultivators pay their shares, and on their application defaulters will be treated as laid down in the existing revenue rules; but all the cultivators who have agreed to accept a lease, will be jointly and severally responsible for the amount of land rent due by any individual owner or cultivator of the leased tract, that is within the village tract they inhabit.

5th.—Rights of property will remain the same as before.

6th.—All other taxes, besides the land tax, will remain as before.

7th.—The draft of an agreement which should be signed by the cultivators of a leased tract is annexed. This may be modified, however, according to circumstances.

8th.—On the expiry of the lease a new survey will be made, and if necessary new rates of assessment imposed.

9th.—All leases made should be entered by the settlement officer in a register to be kept for the purpose, the form of which is annexed.

DIRECTIONS

FOR THE ASSESSMENT OF PADDY LAND, IN THE
PROVINCE OF BRITISH BURMA.

Village tracts
how divided.

1. All village tracts in Pegu are divided into portions of country called quengs or *pyeens*, on which paddy cultivation is or may be carried on. It is assumed that the quengs may to outward appearance be classed as follows:—

1st.—Those entirely cultivated.

2nd.—Those partially cultivated.

3rd.—Those where the land has entirely fallen out of cultivation, or land covered with primeval jungle, capable of being converted into queng land.

Procedure re-
garding assess-
ment.

2. In proceeding to assess the paddy lands of those quengs entirely cultivated, it is necessary to ascertain as follows:—

1st.—The present rate of tax per acre.

2nd.—The average yield of paddy per acre.

3rd.—The average price of paddy on the spot.

4th.—The distance from and means of facility of transport to the nearest great and constant market.

The first and third heads of inquiry need not here be enlarged upon.

Yield of crop
per acre how as-
certained.

3. In order to ascertain the yield of paddy, it will be necessary to reap and beat out the crop on a given area of ground in each queng. If the queng is a large one, or say of two to three hundred acres, it might be advisable to test the yield of crop in five or six different places or more, by measuring off, say one-eighth of an acre in each

place. The result of each experiment should be recorded on the spot in a register. It is very necessary that the officer conducting the inquiry, should personally superintend this work, and not trust it to subordinates, in order to avoid any suspicion of underhand dealing having occurred.

4. It is to be assumed that the ordinary amount of the Government share of the paddy crop is one-fifth or twenty per cent. of the gross produce. In ascertaining the average yield of a queng per acre, and converting the Government share of that into a money rate per acre to be paid by the cultivator, it will frequently be found impossible to reconcile the results obtained by mere measurement and calculation, with what is assumed to be a fair remuneration to the cultivator, and with the rate already paid to Government; yet the cultivator may be willing to accept the land on the same terms as before, although according to the measurement and calculation he would thereby gain little or no profit.

Anomalies accompanying the results of such procedure.

5. In like manner it will sometimes be found that what appears, by measurement of crop and arithmetical calculation, an unduly low rate as the Government share of the produce, the cultivator will state is too high for him to pay. These anomalies arise partly from the yield of land varying in different seasons, and partly from the experiments being necessarily conducted on only a minute portion of the whole area of a queng.

6. In most cases it will be found that after every calculation of average produce and measurement of area has been made, and the price of grain and means of transport duly weighed, it is proper, in order to fix a fair moderate rate per acre upon the queng, while taking into consideration the results obtained from actual experiment, yet to exercise a sound discretion in fixing the

Procedure by what regulated.

rate upon general considerations, such as the amount heretofore paid by the people; their own statements of their profits and what they are willing to pay; and likewise to have regard to the general evidence of prosperity or the reverse, apparent in their dwellings and appearance. Where cultivators make statements of the yield of their ground, the result may be shown in an additional column of form A.

7. As a general rule the Burmese, Taleing and Karen cultivators are truthful and frank as to their crops and profits. In effecting the land assessment, pains should be taken to shew them that a fair portion of the produce is all that is required by Government; that the cultivators' or owners' interests and the Government's are one and the same; that a settlement of the land revenue being once effected, the rates will remain unchanged for several years; and that in taking new land the cultivators will, under the proposed arrangement, always know the rate they will have to pay for every acre they may occupy.

Range of rates
per acre.

8. As a general guide to the limits within which the rates per acre may range, I would remark that no queng should at present have a higher rate put on it than rupees 2-4 per acre, except lands with peculiar advantages, which can be assessed at 2-8. This will be an advance of $12\frac{1}{2}$ per cent. on the highest rate now existing; and that rate should not extend beyond the districts of Rangoon and Bassein. The lowest rate in remote situations may be four annas an acre. The rates in the various quengs, those in the remote parts of the country having the minimum rates, and those in the districts of Henzada and Tharawaddy having medium rates, may range between the sums above mentioned; but, for convenience of calculation, fractions of two annas, or one-eighth of a rupee, should gener-

ally be avoided, and the rates should generally run from 4 annas to 6 annas, 6 annas to 8 annas, and so on. As the lands in Pegu were purposely fixed originally at a clearly low rate, it is probable that most of the cultivated quengs, at least in the districts of Rangoon and Bassein, will bear an increase of rate, but it is by no means intended to make this a positive rule.

9. In noting the average price of grain (un-
husked rice) upon the spot, in the circle or village where the settlement is being made, care should be taken to assume a clearly moderate average price, independent of any rise consequent on sudden increased demand for export or otherwise.

Average price
of grain how to be
ascertained.

10. In the case of a queng only partially cultivated, where it has remained so in consequence of the rate already imposed being too high, the rate should be lowered so as to admit of the remaining lands therein being cultivated with profit.

In quengs par-
tially cultivated.

11. Where quengs or plains have never been cultivated at all, and are still covered with grass or tree jungle, means should be taken to ascertain the nature of the soil, and a rate approximating to that of the nearest adjoining cultivated quengs (any peculiar circumstances of the position of the ground being also considered), should be imposed. The people will then know what rates they will have to pay on such lands after the period of exemption which they receive under existing rules shall have expired. It will generally be found that some of the old cultivators of the circle will be able to give a sound opinion on the quality of the soil of quengs, or of forest lands hitherto unbroken.

In quengs al-
together unculti-
vated.

12. While the measurement of crops is going on, the land measurer attached to the settlement officer should be employed in making a rough

Duties of land
measurer.

plan of the circle in which the operations are being carried on. In this will appear the several quengs with their boundaries. Each queng will have a number marked on the map, which number will also be attached to the same queng in the register (form B.) The land measurer should in each case make a rough survey of each queng, showing the total cultivation and the total waste land.

Standard of cubic measurement of grain.

13. It is to be remembered that all measurements of the quantity of paddy yielded by the land measured, should be made in the Government standard basket, containing 2218.19 cubic inches. In estimating the local market price of grain it will be remembered that it is calculated by the villagers in the local basket, which will be somewhat larger than the standard one.

Sketch maps report of townships and circles by what to be accompanied.

14. It is to be understood that these inquiries should be carried on and completed first in one township, so that along with the record there may be a sketch map of the township on a scale of half a mile to an inch, shewing the several circles therein, and a sketch map of each circle on a scale of six inches to the mile, showing the cultivated and jungle area in each queng.* In the construction of these maps it is only required to show the approximate area and relative positions of the several quengs, so that close accuracy is not expected. The names of places (*i. e.* villages) on these maps will be but few, and such as there are should be entered in the Burmese character. Specimens of what is here intended, marked D. and E., are added.†

Land and grain measurements how to be disposed.

15. The officer may find it expedient in order to conclude a number of measurements of crops, before grain is removed from the land, to move on to other quengs while the inquiries contem-

plated to be made regarding the land are still uncompleted. This is advisable in order to prevent the cultivators being inconvenienced, and suffering loss from their crops being kept on the ground. Having disposed of the land and grain measurements, the settlement officer can then return and commence making inquiries relative to property in land.

16.* While the surveyor is going on with his work, and when the measurements of grain have been completed, the settlement officers should make inquiries regarding landed property. The result should first be embodied in the numerical return marked C, with a further detailed statement of fields rented, sold and mortgaged. The latter information will be recorded in the statements C 1, C 2, and C 3. The information contained in such tabular statements will of course be derived by the settlement officer personally from the owners, tenants and mortgagers of land. They will generally be found quite willing to communicate their whole affairs.

Tabular statements how to be filled up.

17. When any old land-holding families are met with, detailed statements regarding the time they have held estates should be written down, as well as any interesting circumstances relative to their tenure of the land, which they may relate. These narratives may be appended to the tabular statements. If there are any mortgage bonds or other deeds and papers, these might be copied if the possessors have no objection, which generally speaking they have not. It should always be remembered that, where there are family disputes regarding land, there may in some cases be an unwillingness to enter upon the subject of the property in dispute; or there may be a disposition to misrepresent the circumstances relative to the land. It will however generally be found, that

where the inquiry is conducted in the tone of a friendly solicitude for the welfare of the people, and where the whole village community are invited to be present as at a conversational meeting, all shyness and reserve in communicating on the subjects herein adverted to will be overcome, and the presence of the whole community will generally counteract any disposition to wilful misrepresentation.

Assessment
rules only refer to
what.

18. The rules for assessment refer only to the arrangement regarding paddy lands, and are not to be applied or extended to other descriptions of land. The inquiries regarding property in land will however extend to gardens, orchards, and other descriptions of land, but the assessment of these will remain as before, namely, the highest rate of paddy land in the circle or village tract wherein they are situated being put upon them.

19. Separate returns will be made in the forms C, C 1, C 2, and C 3 for paddy land, and for garden and orchard land.

20. It should always be borne in mind that it is desirable to record the whole details of the method employed in each queng, to ascertain the yield of crop, and also the reasons for adopting the average local price of paddy which may be fixed upon. The means of communication from each queng to water carriage, the distance, &c., should also be carefully recorded.

SUBURBS OF MAULMAIN.

1. All land shall be sold at public auction under and subject to the terms and conditions of these and the auction rules hereinafter mentioned.

2. All applications for land shall be made in writing, accompanied, except for town allotments, by a rough sketch of the same, stating its boundaries and vicinity, also specifying clearly the object and purpose for which it is required, to the Deputy Commissioner or officer in charge of the grant department.

With every application a sum of ten rupees must be deposited to meet and cover the expenses of surveying, conveying, advertising and notifying the sale, &c., &c. Any surplus will be returned.

3. Every original sale of land will be registered by the officer signing the grant in the land registry office of the grant department.

4. Every grant of land, besides such other special conditions as the Chief Commissioner or Commissioner may, with the consent of the grantee, have imposed, shall be subject to the following general conditions, the infringement or neglect of any of which will render it liable to resumption :—

1.—All buildings erected on lots in the town itself shall be made of substantial materials with pucca, tiled, shingled, or plank roofs, or a roof in the opinion of the local authorities equally secure against fire.

2.—The land, with all erections thereon, will always be liable for the discharge of the public taxes, local and general, and the municipal assessment.

3.—The tenants, or other persons in possession or occupying in the absence of the owners, will be liable for the payment of these taxes and assessment with the right of recovery from the owner as provided for by law.

4.—The owner of the land binds himself to observe all local laws in force, or which hereafter may be put in force regarding the registration of land.

5.—Every payment for land, and charges or deposits on account of land, should be made only on a receipt being given, and not otherwise.

In all applications for, or other matters concerning land, the Deputy Commissioner, or officer in charge of the grant department, must be addressed by petition which should be presented in person, or by some competent agent to hear and receive the order which may be passed thereon, all correspondence with the department being impracticable and forbidden.

Any ordinary inquiry may be made in person at the grant office.

6. Every sale of land will be publicly notified in English and Burmese at least 15 clear days before the sale.

The notice will specify the date, hour, and place of sale; the land to be sold, its area, its upset price and the terms and conditions of the sale, and be published three times in one of the local newspapers, or other advertising medium; one copy will be affixed at the grant office, and another at the most public spot near the place of sale.

7. All land will be sold on the spot at the upset price, and tom-tomed at least one hour before and up to the time of sale within a circuit of not less than 300 yards of the land to be sold.

8. The land will be knocked down to the highest bidder above the upset price (whether he be the original applicant or not) and the sale then declared.

In the event of any dispute or doubt which of two or more is the last bidder, the land will be immediately again put up at the previous bid and then sold to the person who next thereafter bids highest.

9. Every purchaser, if required by the auctioneer, must pay down at the time the sale is declared one fourth of the purchase money, failing which the land will again be put up (at the upset price) at his risk and loss in consequence of such re-sale, but without any of its advantages.

10. One half of the purchase money must be paid within 3 days from the sale, and the remaining half within two months thereafter, failing the former the land will be re-sold under the same conditions as stated in rule 9—failing the latter, the money previously paid will be forfeited and the land lapses by right to Government.

15. No sale will be considered final until the third day after, exclusive of the day of sale, unless the whole sum be paid previously.

Upon this day, but not before, and conditional upon the payment of the half of the purchase money, the auctioneer will give the purchaser a certificate, with the particulars noted in rule 13, besides the receipt for the half of the purchase money.

On presentation of the certificate at the grant department, a grant will be issued for the lot in the name of the certificate purchaser.

16. In the event however of any one feeling aggrieved, from whatever cause, by the sale of any land, he may present his complaint at any time before the sale is made *final*, as set forth in the preceding rule, to the Deputy Commissioner or officer in charge of the grant department, who will hear the matter summarily, and either dispose of the case himself, if he considers it within his authority and proper so to do, or refer it to the Commissioner.

In the event of any appeal being made within three days from his order, or pending the reference to the Commissioner, the issue of the grant will be suspended.

The order passed by the Commissioner will be open to appeal for thirty days only, to the Chief Commissioner, whose order in any case will be final.

17. All land must be sold by the auctioneer himself standing on some portion of the same.

A substitute will not be allowed without the sanction of the grant department.

18. The auctioneer in all cases will receive his instructions from and act under the authority of the Deputy Commissioner or officer in charge of the grant department only.

19. The auctioneer shall immediately pay into the government treasury all monies received by him on account of land, or other matters connected with the grant department, with a chellan setting forth all the particulars thereof, and countersigned by the Deputy Commissioner, or officer in charge of the grant department.

2.—If the land in excess adjoin unsold government land it may be resumed and make up a portion of the same.

3.—All land in excess, sold at an upset price or by public auction, shall be considered as part and parcel of the land previously held by the purchaser and subject to the tenure of the grant of the same.

4.—The land in excess to be added in on the plan of the original grant, after it has been registered and so written off in the grant department, and colored red.

SECTION II.—MISCELLANEOUS REVENUE.

CHAPTER I.—ABKAREE.

RULES

FOR THE SALE OF WINE, BEER, SPIRITUOUS AND
FERMENTED LIQUORS AND INTOXICATING DRUGS
IN BRITISH BURMA.

Preamble.
Declaration of
object.

The object of the Abkaree or Excise department in British Burma is to raise for the public benefit the greatest possible amount of revenue from the smallest possible consumption of spirituous and other liquors and intoxicating drugs used by the native population.

It is not desired to extend the consumption of spirituous liquors and drugs into the interior of the country. At the sea-port towns and at the large stations, where there is generally a considerable foreign population, already accustomed to the use of stimulants, the right to sell by retail, for consumption on the premises, intoxicating liquors and drugs may be farmed out annually as hereinafter provided. At other places in the interior of the country no sale of liquor or drugs will be allowed, except on the extreme northern and southern borders of the province, where it has been found impossible, except by measures which would be vexatious to the whole population, to prevent the illicit sale of opium brought from other countries.

In the principal towns, also, licenses will be issued for the sale of European wines and of spirituous and fermented liquors. The amount derived from these, and from tavern licenses, is credited to the municipal fund of each town.

Trees yielding toddy exist in most parts of the country. Whether the sale of the toddy juice be permitted or not, fermented toddy will surely be drunk where the trees exist. The liquor is wholesome and it is right to regulate the sale, and derive a revenue therefrom, as the consumption cannot be prevented, even were it desirable to do so.

Distilleries are licensed under separate rules.

On the above grounds the following rules have been framed for the province of British Burma, to have effect on and after the 1st May 1866 :—

1. The Deputy Commissioner of each district may, with the sanction of the Commissioner of the division, let a farm for an annual sum, to be ascertained either by calling for tenders or by public auction, for each year commencing with 1st of May the exclusive right of selling by retail, within a specified locality, spirituous or fermented liquors for consumption on the premises, and of intoxicating drugs. Provided that the same shall only be sold at the head-quarter stations of the Deputy Commissioner of each district, or at such of them as may be deemed requisite, and at such other towns as shall annually be allowed by the Chief Commissioner. Provided that with the sanction of the Chief Commissioner the period for which a farm is let may exceed one year. Provided also that in the districts of Akyab and of Mergui the Commissioner of the division may sanction the sale of opium with the permission of the Chief Commissioner at places other than the head-quarter stations, either by farm or by license as shall be found most convenient.

Farms for retail sale.

Proviso.

2. Any person in whom the exclusive right shall be vested of retailing (to be drunk only on the premises) all kinds of spirituous or malt liquors (except taree) in any such town, shall be

called the spirit farmer of such town; and the person in whom shall be vested the exclusive right of retailing (to be drank on the premises) tarce in any such town, shall be called the tarce farmer of such town; and the person in whom shall be vested the exclusive right of retailing (to be consumed on the premises and only to be taken away in specified quantity) opium and its preparations in any such town, shall be called the opium farmer of such town; and the person in whom shall be vested the exclusive right of retailing ganja and its preparations (only to be taken away in specified quantity) in any such town, shall be called the ganja farmer of such town. Each farmer has only the right to sell within certain defined limits, which shall never exceed the town or station where he may be licensed to sell. The farmer will in no case have a claim to compensation on account of any measures taken to supply troops or camp followers with any kind of liquor or drug; or on account of any license issued for sale of liquor or drug within any cantonment.

farm.

3. The tarce farms shall consist of shops for the retail of tarce, whether fresh or fermented, to be drank only on the premises, or removed from the shop only in quantities of not less than three (3) and not more than twelve (12) quart bottles under a pass from the tarce farmers, who shall keep a register of such passes. The opium farms shall consist of shops for retailing, and also for smoking, opium and its preparations, such as chundoo and muddut, on the premises; the retail quantity of opium allowed to be taken away from the shop by any single

person at one time and once only within twenty-four hours being restricted to one tola in weight, exclusive of what may be consumed by the same purchaser on the premises. And the ganja farms shall consist of shops for retailing ganja and its preparations.

4. The number of shops in each farm and their distribution shall be as determined yearly by the Commissioner of the division; and localities of the shops shall be fixed by the farmer with the sanction of the Magistrate at each principal sea-port, and of the Deputy Commissioner of the district at other stations.

As regards the public works department accounts, the Controller at the close of the year furnishes the Accountant General with the figures, and he embodies them in the account.

rity, all receipts should be paid into the bank or treasury, and he should carry the taxes, as collected, to the credit of the several funds. The interest on sums funded should be drawn and carried to credit half-yearly.

The rules respecting the renting of the several town ferries appear under their proper headings.

Rangoon municipal fund.

The municipal fund of Rangoon is debited with repairs of all works executed for the municipality by the public works department.

MISCELLANEOUS FUNDS.

Rangoon land-sale and rent fund.

Sums arising from the proceeds of the sale of town land, and rent on unsold town lots in Rangoon, constitute what is called the "*Rangoon land sale and rent fund*." From this fund all original works in the town and suburbs of Rangoon are constructed. The accounts are rendered by the Deputy Commissioner to the Accountant General annually.

5 per cent. cess fund.

The rules regarding the collection of the 5 per cent. cess fund appear at page 185. The cess, which is divided into four funds, is collected by the Thoogyee, and paid into the treasury as a separate sum, and shown in a separate form.

The funds are kept quite distinct—the different amounts to credit of each fund are shown separately in plus and minus memoranda at close of the month, as those of other local funds are shown. The Deputy Commissioner submits quarterly to the Commissioner a return in the form ordered, showing the state of this fund. This is necessary with reference to projected works, or establishments. But he furnishes to the Accountant General the accounts in such form and at such periods as that officer requires. He can sanction and carry out works up to an outlay of rupees two hundred (200). Above that sum the sanction of the Commissioner of the division is required. He also submits another quarterly return,

through the Commissioner, to the Chief Commissioner's office showing the works carried out and the amount expended on each. This return should be prepared and submitted to the Commissioner on the 1st of May, 1st August, 1st November, and 1st February.

The rules respecting the several bazaars will be found under their proper heading. The objects of a bazaar fund are obvious, viz., public convenience for the sale and purchase of articles of daily consumption; and to keep the bazaars in repair and clean; to build new ones when required, &c.

BAZAAR FUNDS.

The account of each bazaar must be made up separately by the Deputy Commissioner, or Civil officer in charge, and submitted to the Accountant General monthly.

Accounts how
and by whom
kept.

Each head of a department collecting local taxes should submit to the Commissioner—with the local funds' estimate for the ensuing year—a statement showing the probable amount of funds available, and what work he would propose for execution during the ensuing year. He should state also the probable cost of the works.

General procedure regarding
execution of
works.

The Commissioner will then select such works, the cost of which is within his competency to sanction, *i.e.*, to the extent of rupees 500, passing his opinion on the expediency or otherwise of executing such, the cost of which may exceed his competency to sanction. District officers may sanction original works or repairs up to rupees 250; when available convict labor to the extent of the cost of any one work within the competency of the Commissioner or Deputy Commissioner to sanction, may with the concurrence of the Inspector General of Prisons be employed. The labor of each prisoner is to be estimated at four annas per diem for each working day.

In towns where the works are under the Executive Engineer (Rangoon, Akyab, Maulmain) the estimate for works &c. is made by that officer.

Annual report
how to be submitted.

The annual report on local funds should be framed in a manner similar to the revenue report. It should be submitted as soon after that report as possible; with this annual report heads of departments should forward a detailed list of the fixed establishments as they stand at close of the official year, and district officers should include the number and cost of the police debited to each municipal fund.

The population of the towns paying for municipal police should also be given.

THE FOLLOWING RULES HAVING REFERENCE TO THE MODE OF DEALING WITH EXPENDITURE INCURRED IN THE PUBLIC WORKS DEPARTMENT FROM LOCAL FUNDS IN THE ACCOUNTS OF THE CIVIL DEPARTMENT, ARE LAID DOWN IN EXTRACT FROM THE PROCEEDINGS OF THE GOVERNMENT OF INDIA IN THE FINANCIAL DEPARTMENT NO. 135, DATED SIMLA, THE 26TH APRIL 1866.

The receipts of local funds are, for the most part, realized in the civil department. The accounts of the funds will remain as at present in the books of that department.

Such local fund revenue as is realized in the public works department, will be brought to credit of the funds on the civil books, by debit to the public works department, by means of a monthly statement to be sent by the Controller public works accounts, to the provincial Accountant General.

The disbursements from local funds will be debited to the accounts of the funds maintained in the civil books; for that portion of the ex-

penditure which is incurred by public works agency, the Controller, public works accounts, will send to the provincial Accountant General a statement of the amount charged in his account for the month, detailing the funds debitable with their respective shares of the total amount.

The latter officer will pass the amount of this statement to debit of the several funds and credit of "Public Works Department."

* * * *

The local civil officers will be responsible for keeping their expenditure from local funds within the portion of the annual estimate allotted to them by the local government.

It should be kept with the greatest precision and regularity, and no erasure should on any account be permitted, any alteration should be made in red ink, under the initials of the officer in charge of the fund.

Accounts to be rendered to the Accountant General.

4. The present form of monthly cash account should be continued and forwarded to the Accountant General's office on the second working day after the expiry of the month. It would be as well, before transmission, to compare it with the entries made during the month in the treasury books, so that any discrepancies may be reconciled before despatch.

Payments of fixed charges by treasury officers.

5. The payments on this account need not be supported by vouchers, as such charges will be checked in the Accountant General's office by the vouchers which accompany the district cash account.

6. As the account will undergo post audit in the Accountant General's office, salary bills, &c., in original, only should be presented for payment at the treasury before audit. Payments on such accounts will be made on and after the first day of the month succeeding that for which they are due.

Payment of contingent net charges by treasury officers.

7. Every officer who regularly incurs contingent expenses on account of any Local Fund will, at the beginning of each official year, obtain from the Commissioner of his division a general sanc-

tion to the scale of his expenditure for the year, limited in regard to numbers, rates, or aggregate amount, as the controlling officer may consider expedient. This sanction will be communicated to the treasury officer as well as to the officer concerned, and the latter will then be paid the amount of his monthly bills for contingent expenses within the sanctioned limit, without pre-audit or the counter-signature of the Commissioner.

8. Abstracts of contingent charges in the prescribed form, which form a portion of the monthly contingent bill, may twice a month be presented for payment to the treasury officer, who will after payment forward them with the monthly cash account. As payment will be made on abstracts, the detailed contingent bill, of which there should be only *one* for the payments of the whole month, should not be presented at the treasury, but should be forwarded by the officer incurring the charge to the Commissioner of the division, who should immediately examine, countersign, and transmit it to the Accountant General for comparison with the charge in the cash account, and for recovery of any retrenchment which the Commissioner may have noted on the bill. Such retrenchments should be recovered under instructions of the Accountant General either from the succeeding payment or in any other suitable manner. To facilitate reference the detailed bill should give the date of the abstracts upon which payment was made, and the abstract should quote the number of the sub-vouchers included in it for payment. When the signature of the Commissioner can be obtained to the detailed bill before payment, the authorized bill may be used as a voucher and the abstracts dispensed with.

9. Officers incurring petty expenses, which require to be disbursed as the occasion for them arises, and before the money for paying them can be obtained on the usual contingent abstract, are allowed permanent advances of rupees 50 each. Out of this sum all petty charges should be paid, and the amount be recovered by presentation at the treasury of the monthly contingent bill or abstracts as the case may be. Should rupees 50 not be deemed sufficient, application for a permanent advance of the required amount should be made to the Commissioner of the division.

1. In arranging for the renting of the ferries the Deputy Commissioners will be guided by the provisions of the following extracts from section 3 to 7 of Regulation 6 of 1819 (Bengal code) which are still applicable to the ferries of this division.

2. They will exercise their own discretion in fixing the amount of rent for each ferry with reference to its ascertained value.

3. As a general rule—where the same can be effected—the ferries should be rented to the inhabitants of the villages in their immediate vicinity—or if the ferry is disposed of by auction the privilege of pre-emption at the highest bid should be secured to them.

Rent how paid.

The annual rent for the several ferries in the Arakan division is to be paid in (4) four quarterly instalments in advance, viz: the first on the day the ferry is rented—the second on the 15th July—the third on the 15th October and the fourth on the 15th January; in failure of which the ferry will be put up to auction again for the period unexpired, and the original purchaser shall forfeit all profit from the re-sale and shall make good any loss that may accrue, and the Deputy Commissioner may summarily distrain his property for its recovery.

Extract Regu-
lation 6 of 1819.

3. First—No ferries shall be hereafter considered public ferries, except such as may be situated at or near the sudder stations of the several

Magistrates, * * or such as may intersect the chief military routes, or other much frequented roads, or such as from special considerations it may appear advisable to place under the more immediate management of the Magistrate.* *

Second—The Government reserves to itself the power of determining from time to time what ferries shall, under the preceding rule, be deemed public ferries, and as such, shall be subject to the immediate control of the Magistrates * * ; and no Magistrate * * shall without previous authority from Government, assume the management of any ferry which may not have been let in farm * * or otherwise subjected to assessment.* *

Third—It will be the duty of the several Magistrates * * to prepare lists of the ferries, which in their judgment should, under the foregoing rules, be considered to be public ferries, and transmit them as soon as prepared * * * for the information and orders of Government.

4. First—The power of appointing proper persons to the charge of the public ferries is vested in the Magistrates * * who are authorized, from time to time, to issue such orders as they may judge expedient, for limiting the rates of toll to be levied at each ferry, for regulating the number and description of boats to be maintained, for preventing exactions, and generally for promoting the efficiency of the police, and the safety and convenience of the community.

Second—On proof of any wilful breach of those rules, or of other misconduct on the part of the *Manjees* or other persons in charge of the public ferries, the Magistrates * * are empowered (independently of any punishment to which the parties may subject themselves under the general regulations) to remove such individuals, and to appoint others in their room,

Third—The *Manjees* or other persons who may be vested with the charge of public ferries, are to engage to cross free of toll the troops of Government, with their baggage and military stores, as well as all police and other native officers of Government who may be actually employed on the public service.

5. A list of all public ferries bearing the signature of the Magistrate * * shall be constantly stuck up in some conspicuous place in their *cutcherries*, * * * and likewise in the *thana* within the jurisdiction of which they may be situated.

* * * *

7. First—In assuming the management of public ferries, the general objects of the Magistrate * * shall be the maintenance of an efficient police, the safety and convenience of travellers, the facility of commercial intercourse, and the expeditious transport of troops. For the above objects, they shall be careful to provide, or cause to be provided, safe and commodious boats : they shall fix the rates of toll on a very moderate scale, * * * * they shall adjust the modes of payment so that the tolls may bear as lightly as possible on the poorer classes of the community, and by leaving a fair profit to the individual who may be chosen for the immediate charge of the ferries, they shall endeavour to secure as far as possible the services of respectable and competent persons.

Second—No collection shall be taken on account of Government, from the proceeds of any ferry, until the above objects are fully secured ;

and if in any case there shall remain a clear surplus profit, after providing adequately for those purposes, the amount collected shall be applied solely to the furtherance of similar objects, such as the repair or construction of roads, bridges, and drains, the erection of *suraees* or other works of a like nature.

Standard measure for all retail sale of grain in bazaars, in Pegu and Tenasserim.

The standard Burmese basket or bushel has been constructed of copper in a cylindrical form, depth 14.562 inches, diameter 14 inches. The contents of this copper measure are equal to 2218.19 cubic inches as near as it is possible to make it. The true contents by computation of a cylinder 14 inches in diameter by 14.562 in depth will be 2241.6 cubic inches. This difference is attributable to the absence of true sphericity as it is not possible to turn a cylinder so true as to give the exact contents, but the copper vessel

now constructed is as correct as such an article can be manufactured. The pyee or pottle measure is exactly one-sixteenth of the bushel.

The standard basket measure is applicable to all retail sales of grain of any quantity not exceeding in the transaction one basket. In wholesale transactions the seller and buyer will use such basket measure as they prefer. The standard basket alone will be used in all government bazaars.

Weights used
in British Burma.

In most towns of British Burma foreign articles usually sold by weight are sold in shops by British avoirdupois weight.

Articles sold in the daily markets held in towns in Pegu and Tenasserim are sold by Burmese weight.

The basis of the Burmese weights is the tickal which equals 252 grains troy, or exactly one cubic inch of distilled water at the temperature of 60°. One hundred (100) tickals make a viss; one viss equals 3.65 lbs. avoirdupois or 140 British Indian tolas exactly.

FOR LICENSING THE RIGHT OF VENDING CERTAIN ARTICLES AT THE LANDING-PLACE WEST OF THE MAIN WHARF AT RANGOON.

Preamble.

Whereas it has been found necessary to frame certain rules for the keeping the landing-place west of the main wharf at Rangoon clear of an indefinite number of vendors of petty stores, and at the same time for preserving it in a clean and orderly state, and whereas the best plan of effecting this is to limit and restrict the space occupied by such vendors of stores by granting a license of licenses for the sale of articles at the landing place under proper restriction, it is ordered as follows :—

Stall allotments.

1. There shall be place given for 4 stalls and no more for the sale of articles at the said landing place each measuring six feet square—two on either side, east and west, contiguous to each other, and under cover of the verandah, but without enclosure or partition of any kind, and nothing shall be sold or exposed any where within the landing place save at these 4 stalls.

**What persons
entitled to sell.**

2. The license-holders alone shall be allowed to sell articles at the above 4 stalls, and not more than 2 vendors shall at any time be allowed to sit within each of the stalls' spaces, nor shall the licensed stall keepers have at any time more than 2 baskets of articles within the several stalls.

**What articles
for sale.**

3. The only articles which will be allowed or exposed for sale at the stalls on the landing-place are fruits, vegetables and cakes of kinds, and ginger beer.

**Stalls to be
kept clean.**

4. Each licensed stall keeper shall without fail bring and keep in his shop one broom or besom, and they shall be jointly and severally answerable that the stalls as well as the surrounding

space inside and outside the landing-place shall at all times be kept free of dirt and refuse of any kind which may accumulate by reason of such stalls being used as places for the sale of articles.

5. The rent to be paid by each licensed stall keeper shall be at the rate of 4 rupees per month, which shall be paid in advance for each calendar month, at the end of which the Magistrate may continue or renew the license ; and any breach of these rules will subject the license-holder to forfeiture of his license, in which case any money paid in advance will be escheated. Rent to be paid.

PORT OF RANGOON.

Commanders of vessels bound for the port of Rangoon, should endeavour to make the coast well to the southward, about the China Buckeer river, as many ships have been lost in consequence of having been swept by the strong flood-tide on to the extensive and dangerous sands to the northward and eastward, and into the Sit-tang river, in which direction the spring flood sets with dangerous velocity. Pilots are usually cruising well to the southward of the Light vessel, which is stationed at the entrance of the Rangoon river, in lat. N. $16^{\circ}16'05''$ —long. E. $96^{\circ}19'36''$.

DIRECTIONS

FOR ENTERING RANGOON RIVER.

The entrance to the river is marked by two beacons.

The western or Elephant beacon, painted alternately red and white.

The eastern or Grove beacon, upper half black, the lower white.

With these bearing to the northward steer up for the Light vessel in lat. N. $16^{\circ}16'05''$ —long. E. $96^{\circ}19'36''$; at the low water spring tides soft mud $3\frac{1}{2}$ fathoms. Flood sets N. E. by N.—Ebb. S. W. by S. $3\frac{1}{2}$ to 4 knots.

From the Light vessel with a fair wind steer N. by E. $\frac{1}{4}$ E. about 5 miles for the outer black buoy, passing it to the westward a good cable length; from thence, steer north for the upper black buoy till the upper red buoy is in sight, bearing N. N. W.; pass to the eastward of this

with the western beacon bearing N. W. and steer in for Elephant point, which bearing from W. S. W. to S. S. W. distant half a mile will give good anchorage.

N. B.—Care must be taken not to bring the black buoy to the westward of N. $\frac{1}{2}$ E. or the red buoy to the eastward of north.

FROM ELEPHANT POINT TO RANGOON.

Steer along the right bank of the river, about a cable's length from the shore, until close to Bassein creek, when cross over to the left bank, along which steer at a distance of $1\frac{1}{2}$ cable's length from the shore, until Dagon Pagoda bears about N. W.; then steer mid channel between the red and black buoy on the Hastings shoal for the Flag-staff in the town, and anchor opposite the dockyard.

RULES AND REGULATIONS

FOR THE GUIDANCE OF THE HARBOUR MASTER
AND HIS ASSISTANTS.

Rangoon, June 1866.

Duties of Har-
bour Master.

The Harbour Master's duties will consist principally, as follows :—

1st.—General supervision of his Assistants and their work.

2nd.—Charge of all the buoys and marks in the river and channel.

3rd.—Docking, and undocking, or placing on and off the cradle, or hard, all vessels requiring it.

4th.—Instructing the Assistant and Extra Assistant Harbour Masters in their duties, and seeing that they keep the correct line of mooring, as marked by the buoys and posts.

5th.—The Harbour Master and Deputy Harbour Master should moor all the larger vessels, leaving the smaller ones to the Assistants.

6th.—The Harbour Master will have the general direction of the working of his establishment. It will be his duty to issue instructions to his Assistants every evening for the work of the following day.

Every care must be taken that the *first* arrivals are the *first* supplied with Harbour Master. The want of this care was the cause of much complaint last year.

7th.—If the Harbour Master has cause to be dissatisfied with the working of any of his Assistants, he will report the same in writing to the Master Attendant.

8th.—It will be the Harbour Master's particular care that the line of moorings between 21 and 22, opposite the Main wharf, and between 33 and 34, opposite Godwin's wharf be kept clear. Should any vessel be anchored so as to swing with either tide within the extreme limits of these lines, she is to be at once removed.

It will eventually be the duty of the Harbour Master's department to relieve the Pilots of steamers when off Daneedaw Pagoda, and take them alongside the wharves or into mooring between the months of May and October. This will not be till the establishment is in efficient working order.

Further instructions on this and other points will be given when required.

The Deputy Harbour Master will, in conjunction with the Harbour Master, take every opportunity to instruct the Assistant and Extra Assistant Harbour Masters in their duty. They will, during the present season, always take one of the Assistants with them when they move a vessel, and report to me when they consider any of the Assistants capable of mooring vessels by themselves.

Duties of Deputy Harbour Master.

It will be more particularly the duty of the above officer to take vessels *into* moorings, leaving the work of taking them *out* to the Assistant; but in this and all other points, he must be guided by the exigencies of the case.

It is better a vessel just entering should be detained than one on the point of leaving.

The Deputy will arrange a time with the Harbour Master for every evening to receive instructions for the following day's work.

Duties of Assistant Harbour Masters.

Assistant Harbour Masters will, for the present, work with the Harbour Master and Deputy Harbour Master till reported competent to move vessels in and out of moorings by themselves. They will receive instructions every evening from the Harbour Master for the following day's work.

Extra Assistant Harbour Masters.

Extra Assistant Harbour Masters will follow the above instructions. Their duties, when reported competent, will be principally confined to removing vessels out of moorings.

MARINE NOTIFICATION.

The flag-staff formerly at Dalhousie (which place has been entirely given up as a pilot station) has been erected on the S. E. point of Haingyee or Negrais island, and the following revised directions for entering the Bassein river are consequently published:—

SAILING DIRECTIONS

FOR ENTERING THE BASSEIN RIVER.

1. Strangers should not attempt the passage to the westward of Negrais island.

2. Vessels coming from the southward should bring Diamond island to bear N. W. then steer for it until the fair way buoy, which is situated $1\frac{1}{2}$ mile N. E. of the island, is visible; when near the fair way buoy bring the flag-staff on the S. E. point of Haingyee on or a little shut in with the north east point of that island which will

place a ship nearly in mid-channel, she should then steer up the channel keeping these marks until Pagoda point bears west (true) when she must haul more to the eastward, passing the flag-staff point about half a mile distant in about from 8 to 10 fathoms, when abreast of the flag-staff a vessel should not haul more to the northward or bring the flag-staff point to bear to the southward of S. W. $\frac{1}{2}$ W. (true) until she has made rather better than half the distance between the flag-staff point and the north point of Haingyee; this is necessary to avoid a ridge of rocks, visible at low-water spring tides, that run out from the island and extend somewhat beyond a line drawn from point to point of the island, she may then haul in gradually and anchor in under the high land, with north point of the island bearing about N. W. by N. in 8 or 6 fathoms mud where in the south west monsoons smoother water will be found than higher up off Dalhousie.

It is here remarked that the centre of Diamond island kept on the line of bearing S. 29 W. or S. W. by S. $\frac{1}{2}$ S., nearly, will carry a vessel up nearly as far as Dalhousie point clear of all dangers. Commanders of vessels are also informed of the necessity of paying careful attention to the set of the tides between Diamond island and Orestes shoal, they run near east and west and do not take the course of the river until they reach above the black buoy.

3. Vessels entering from the westward in latitude north of Diamond island should bring it to bear S. E.; steer in for it until the fair way buoy is made, then proceed as above directed for vessels entering from the southward. This passage however should be attempted by sailing vessels only in the north east monsoon.

4. Vessels unable from stress of weather to distinguish the different marks should anchor

under Diamond island, where good anchorage and smooth water is to be found.

The best and safest anchorage during the south west monsoon is with the north end of the island bearing W. $\frac{1}{2}$ N. and distant one mile.

5. Pilots are usually to be had at or near Diamond island, should a pilot be on shore there when a vessel is seen approaching, a pilot jack will be hoisted at the mast head of the flag-staff erected on the island. But vessels not finding one, and being provided with Lieutenant Ward's chart, need have no hesitation in coming in as far as the north end of Haingyee; should a pilot be at Haingyee the pilot jack will be hoisted at the flag-staff erected on that island.

6. Buoys.

A first class red buoy marks the extreme south end of the Orestes shoal.

A first class red buoy marks the eastern limit of the Orestes shoal.

A first class black buoy marks the extreme edge of the shoal extending from Porian shore.

A first class red buoy marked F. W. in white letters is placed $1\frac{1}{2}$ miles north east of Diamond island.

A small red buoy marks the extreme northern limit of the shoal extending off the north east end of Haingyee.

7. The shoal extending south of Haingyee is called the Orestes shoal, and that extending from Porian shore westward is called the Porian.

The sailing directions from Dalhousie or Negrais island to Bassein remain unchanged.

SAILING DIRECTIONS

FROM DALHOUSIE OR NEGRAIS ISLAND
TO BASSEIN.

A vessel should proceed up the river about half a mile from the shore, until up to Yea Jones creek, from thence she should sheer over to eastern bank gradually until the black buoy on the south end of the ridge shoal is seen, which is to be passed, keeping it on the port hand about two cables' length, and keep on the eastern bank until after passing the red and white buoys, in the same manner as the black; then stand up mid-channel, passing the Sesostris rocks which are buoyed with a red buoy. The rocks lie in shore of the buoy. Keep on mid-channel until close up to Enterprize island, taking care to give the spit a berth that extends a little way down from the south end of the island. There is a passage on each side of the island, one to the east and one to the west. The passage to the left is preferable for a ship of light draft, as it is wide and there is more room to work.

The passage to the eastward is taken by vessels of large draft. Vessels should keep close to the eastern shore in order to avoid the Pariah rock.

In sailing up the passage left of Enterprize island, care must be taken not to approach too close to the spit that extends north of the island. Proceed up as far as the village of Toman Dewa, that lies in a creek on the port hand; then steer across to eastern bank between the red buoys and Elephant island, going nearer to the island than the buoy, until you get into 7 fathoms; then steer up on the eastern shore, until abreast of the Pamawaddie river; from this steer over towards Ashby rocks' buoy giving the Cockatoo rocks a berth of at least two cables' length. These rocks are seen above water, except at spring tides, when

they are covered. There are three patches; two of them show above water half ebb to half flood; one is sunken, and extends to 138 yards outside the others; the least water on it at dead low water spring tide is 16 feet. Keep the port shore until you reach the second creek, when the channel becomes much wider.

The junction is so called from being at the top or north end of Napoota Reach, where two branches of the river meet, the one from the east being the way to Bassein.

At Napoota Reach you may steer up until approaching the junction, where, on the eastern shore, a mud bank extends a quarter of a cable's length from the bushes; there is also a bank extending from the port side. These can be avoided by keeping in nearly mid-channel. In the third reach there is a bank of mud which will be known by a white board in the bushes. On the port hand this shoal extends nearly half way over, and the whole length of the reach in which it is, so that vessels must keep the starboard bank going up, and *vice versa* coming down. The remainder of the passage upwards is without danger and easy of navigation.

There is deep water close to the bank, and the ground chiefly very soft mud. Vessels should have a small warp anchor in readiness to run out if required, and should use a light working anchor for dropping; this will relieve the crew of a quantity of labor.

Vessels should shew their number before arriving at the village of Takion, and masters should report their arrival at the Master Attendant's office and Custom house as soon as possible.

NOTIFICATION.

10th September 1859.

With the sanction of the Governor General of India in Council, it is hereby declared that the port of Bassein and the navigable river and channels leading to the port are subject to Act XXII of 1855.

The limits of the said port of Bassein are as follows:—

Limits of port
of Bassein.

To the north.—A line drawn N. E. from south side of Kyouk-choung-gyee creek through Shoay Mein-den pagoda.

To the south.—A line drawn from the south bank of the Pamawaddie river N. W. through Ashby rocks.

To the east and west.—So much of the Bassein river within the above limits and the shores thereof as are within fifty yards of high-water mark, spring tides.

The limits of the navigable river and channels leading to the said port made subject to the said Act are as follows:—

Limits of water
communications
leading thereto.

To the north.—The port of Bassein as above defined.

To the south.—A line drawn east and west through Parian point to south end of Diamond island, and from thence N. N. W. through Pagoda point. All parts of the Bassein river between the said limits, and below high-water line at spring tides, are subject to this Act.

ALGUADA REEF LIGHT HOUSE.

A first class revolving light was exhibited for the first time from the Alguada reef, in the bay of Bengal, on the night of the 23rd April 1865, and will continue to be shown from that date.

Alguada reef
light.

The light, which is 144 feet above high-water mark, attains its greatest brilliancy once a minute; and is visible, in clear weather, 20 nautical miles from the poop of a large ship.

Cape Negrais bears from the Light house N. $\frac{1}{4}$ W. The pagoda on Pagoda point—N. $\frac{3}{4}$ E. Porian point N. E. by N. The centre of Diamond island N. N. E.

Vessels approaching the Alguada reef will still find it necessary to be careful. The tides when uninfluenced by the wind, set across the reef, and with a good deal of strength between the reef and the Phæton shoal. Vessels therefore should not come under 20 fathoms, on the north-western side, as the water shoals suddenly on this side, especially towards the south-west part of the rocks.

Fifteen fathoms will be a safe depth to pass in, on the southern and eastern sides.

There is a good channel to the north of the reef, between it and the Phæton shoal; but the navigation must always be attended with some risk, to those unacquainted with it, there being no plain marks that can be specified as a safe and sure guide through. Should, however, circumstances compel a vessel to go through the northern channel, it will be well to borrow on the Alguada reef side, passing about half a mile distant from the north-easternmost visible rock, and not coming under 11 fathoms. Should it be high-water the breakers will show the rocks.

On the eastern side of the reef vessels may know they are clear of danger by keeping the highland of Heingyee (or Negrais island) well open to the eastward of Diamond island.

DOUBLE ISLAND LIGHT HOUSE.

Notice is hereby given that a light has been established on Double island in the gulf of Martaban, bay of Bengal. Double island light.

The light was first exhibited on the 4th of December 1865, and will continue to be shewn hence forward, nightly, from sun-set to sun-rise.

The light is a first class fixed dioptric light, and is visible in clear weather about 19 nautical miles from the deck of a large ship. It shows through an angle of $164^{\circ} 30'$ illuminating the western horizon and is cut off on two bearings, respectively N. N. W. and S. $\frac{3}{4}$ E. from the Light house, the former passing one and a half miles clear of the Patch buoy off Amherst to the west, and the latter one and a quarter miles clear of Callagouk island also, to the west; an isolated beam of light shows from the Patch buoy eastward as far as Amherst point. Character of light.

Amherst point bears from the light N. $\frac{3}{4}$ W. Patch buoy N. by W. $\frac{1}{2}$ W. Callagouk island (W. point) S. by E.

Double island is in latitude $15^{\circ} 52' 30''$ N.; longitude $97^{\circ} 36' 30''$ E. Vessels after making the light should endeavour to keep it between the bearings of S. E. and N. E., paying particular attention to the state of the tides, as they run on the springs about 5 knots an hour parallel with the coast; vessels standing in too close to the land will lose the light altogether, but so long as the light is kept in sight they will be in no danger until they are ten miles to the northward of it, when they will be approaching the Goodwin sands, where the tides set very strong. The anchoring ground in the vicinity of Double island is very good—but of course on account of the strength of the tides vessels should avoid as much as possible the risk of anchoring in such deep water.

NOTIFICATION.

The 19th October 1857.

With the sanction of the Governor General of India in Council, it is hereby declared that the port of Maulmain, and the navigable river and channels leading to that port, are subject to Act XXII of 1855.

The limits of the said port of Maulmain are as follows :—

To the north.—A line drawn across the Salween river from the great Martaban pagoda to the boundary pillar at the junction of the Attaran and Salween rivers.

To the south.—A line drawn from the boundary pillar at the mouth of the Kyouktan creek to the boundary pillar on the island of Beeloogyoon, immediately opposite. So much of the Martaban branch of the Salween river as lies to the east of a line drawn from the great Martaban pagoda to the boundary pillar on the north-east corner of the island of Beeloogyoon.

The limits of the said port include to the east and west, so much of the river Salween and of the shores thereof, as are within 50 yards of high-water mark, spring tides.

The limits of the navigable river and channels leading to the said port of Maulmain made subject to the said Act are as follows :—

To the north.—The port of Maulmain as above defined.

To the south.—A line drawn from Double island to the western shore of Beeloogyoon.

12th April 1866.

Notice is hereby given, that the Governor General in Council has sanctioned the following alteration in the limits of the navigable river and

channels leading to the ports of Rangoon and Maulmain :—

Within the space described by 16° of north latitude as the southern boundary, and north of that degree to the coast within east longitude 96° and east longitude $97^{\circ} 35''$.

The red light on Fakeer point at the northern entrance of the Arakan river has been discontinued for many years.

A flag-staff beacon with ball at top-mast head stands on Oyster island, height above the level of the sea 82 feet, and bears from the Great Savage Light house N. 69, West, distance 21 miles.

The 9th March 1866.

NOTIFICATION.

NOTICE TO MARINERS.

Doubts having been expressed as to the accuracy of longitudes assigned to the Andaman islands on the existing charts, notice is hereby given that the longitude of Chatham island, Port Blair has been recently determined to be $92^{\circ} 43'$ east of Greenwich, whereas in the chart of the Andaman islands which is compiled from the surveys of Lieut. BLAIR and Captain MOORSON in 1789-90, revised by Lieutenant HEATHCOTE in 1853, it is assumed to be $92^{\circ} 56'$. The whole group of islands is probably 13 miles west of the position that has hitherto been accepted.

The recent determination of the position of Chatham island is deduced from 202 observations lunar zenith distance, and 29 culminations observed by Mr. NICOLSON, of the survey department, with an alt-azimuth instrument, having a vertical circle 36 inches in diameter. They were reduced in the office of the great trigonometrical survey of India.

SECTION II.—PILOTAGE.

R U L E S

FOR PILOTS AND PILOTAGE FOR THE PORT OF
RANGOON.

Dated 20th April 1865.

1. Licenses will be granted by the Master Attendant, under the authority of the Commissioner of Pegu, to all competent persons who may apply for the same, authorizing them to follow the calling of a pilot for the port of Rangoon; and none but persons so licensed will be regarded as duly qualified. A vessel moving in pilot waters either without a pilot or with an unlicensed one on board, risks her insurance if the services of a licensed pilot are available.

Licenses how
issued.

2. The qualifications for a license are, (besides a character for good conduct and sobriety) a knowledge of general seamanship, the capability of giving intelligible orders in the English language to work a ship, and a competent acquaintance with the Rangoon river and the channels leading there-to.

Qualifications
for a license.

3. Candidates for the office of pilot will forward their applications to the Master Attendant who will submit the same to the Commissioner of Pegu.

Candidates how
to apply.

4. The Master Attendant under the orders of the Commissioner will nominate a committee to examine the candidates, of which committee the Master Attendant shall sit as president. The members shall be two (or more if available) masters of vessels in the harbour, who may be willing to give their services for the purpose, and one of the full draft licensed pilots belonging to the port of Rangoon.

Committees how
nominated.

Form of examination.

The candidates shall be questioned on the pilotage of the river and its approaches, and all questions and replies shall be reduced to writing by the president of the committee, who should take notice of any wrong or defective answer given by the candidate, and remark on the same in the form prescribed.

Certificate of qualification to be granted.

5. On a candidate being reported qualified by the committee, and on the proceedings being confirmed by the Commissioner, he will receive a license numbered under the signature of the Master Attendant, and the counter-signature of the Commissioner of Pegu, in the form prescribed; and his admission on the roll of licensed pilots shall be duly notified for public information in the *official gazette* of the province. He will then work under these rules.

Ships where to be boarded.

6. The ordinary place for a pilot to board or leave a ship outside will be on a line drawn east of the China Bukeer, and on bringing a ship and mooring her in such part of the port as the Master Attendant may direct, (or below the Hastings shoal, should the commander wish to remain there) he will have completed his duty.

Pilot bringing in a vessel entitled to outward pilotage if he is available.

7. Any licensed pilot that brings a vessel from sea to within the limits of the port is entitled to have the pilotage of such vessel outward, if he is available 24 hours previous to her departure. This privilege will not be accorded to any pilot who does not possess, or have a share in, or otherwise have at his disposal, a vessel of a burden not less than (45) forty-five tons, the said vessel to be ordinarily on the pilot station, and to be, in the opinion of the Master Attendant, seaworthy for the south-west monsoon.

Pilots to be licensed.

All pilot boats shall be licensed under certificates granted by the Master Attendant and coun-

ersigned by the Commissioner, according to the form prescribed; and no license shall be granted to any of less than 20 tons measurement. All such boats are to be surveyed by the Master Attendant and passed as seaworthy.

Pilots who do not own, or have a share in a vessel of the above tonnage, shall not be allowed to take vessels to sea where there may be other pilots available for the duty; but, except as provided in this rule, one licensed pilot shall not ordinarily supercede another licensed pilot, unless such pilot is unable to proceed with his charge from sickness or from having an under draft license for outward pilotage. Vessels will have pilots appointed in regular turn as they clear through the customs and Master Attendant's office, the first pilot that is available being appointed to the first ship that has cleared out, and so on.

8. Every pilot is required to produce his license to the master of any vessel requiring a pilot. He is, when seeking to be employed, to fly his pilot flag, which he is also to hoist in some conspicuous place while in charge of any vessel.

Pilot to produce license when required.

The pilot flag is to be four feet square, red and white, horizontal for European pilots and vertical for native pilots, and the number of the license is to be shown on the flag in blue, in figures of two feet in length.

9. It being optional with the commander of a vessel to take a pilot or not, no vessel at sea need be boarded unless the signal for a pilot be hoisted, in which case it is imperative for a pilot to proceed on board without delay.

Optional with commander to take a pilot.

In the event however of a pilot boarding a ship with the signal for pilot flying, the pilot if not

under draft shall be entitled to his full pilotage although the captain may afterwards bring in his own ship, unless he can show sufficient cause for having dispensed with the pilot's services after having demanded them by signal. This applies to a vessel at sea only.

Pilot to attend to call of masters of ships.

10. A pilot is bound to attend to the call of the master of a ship, and any pilot who may refuse or neglect to do so, or who being unengaged passes an inward or outward bound vessel having a signal for a pilot flying without boarding such vessel, will be liable to such deprivation as is hereinafter provided in these rules.

But pilots on the outer station who may be disengaged will give preference to the following vessels.

1.—H. M. men-of-war.

12. Any pilot leaving a ship from any cause, (except a default on the part of the ship, or with the master's consent,) before she has been taken to sea or anchored in the river according to the rules of the port, will not be entitled to any portion of the pilotage, and any pilot leaving a ship under his pilot charge, unless under a medical certificate or with the permission of the Master Attendant, will be liable to be suspended, or to such other deprivation as may be considered proper in his case, and as is hereinafter provided in these rules.

13. No pilot is to take charge of a ship, or move her within the port of Rangoon after she has once been moored, without the order of the Master Attendant, which order is not transferable to any other pilot, without the sanction of the Master Attendant. Any detention which may occur in effecting this duty is to be reported to the Master Attendant. The completion of the duty should also be reported.

Pilot not to take charge of a ship without orders of the Master Attendant.

When a pilot is unable to take a vessel to which he may be appointed across the Hastings shoal, for want of water or a fair wind, and the commander refuses to take steam, the pilot will report the case to the Master Attendant in writing, stating in how many days he considers the vessel can be safely taken over without steam aid.

The Master Attendant will then, if he considers it necessary, remove the pilot and appoint him to other work, and the vessel thus detained will have to wait until another pilot is available.

14. Pilots in bringing ships into port are to pay the strictest attention to the directions of the Master Attendant, as to the places where they are to move; and pilots shall report their arrival on all occasions at the office of the Master Attendant in person, within 12 hours after their arrival.

AMENDED RULES

FOR CUTTING IRON-WOOD IN ARAKAN.

8th August 1865.

1. All forests are under the immediate charge of the Thoogyee (or Kyonoke) of the circle in which they are situated, supervised by the Myonoke of the township.

2. The felling of iron-wood trees below four and a half feet girth (measured at three feet from the ground) is strictly prohibited.

3. Parties requiring iron-wood timber will apply to the Deputy Commissioner of the district for a permit to fell the same; the application to state merely the number of trees required and in what circle it is intended to cut them.

4. The Deputy Commissioner, on receipt of the application, will take a bond from the applicants to pay liquidated damages, not exceeding rupees 100, for each tree under girth that may be cut down, and on receiving payment of the amount of tax, calculated at one rupee for every tree, the Deputy Commissioner will issue a permit for felling the trees.

5. Ordinarily no more than one permit will be granted for the privilege of felling iron-wood trees in one circle; but more may be granted provided the Deputy Commissioner can clearly define the boundaries within which each permit has force. For each separate tract or part of a circle separate permits will be required, and no single permit can have force at the same time in two circles.

6. A register of permits will be kept in the Deputy Commissioner's office in each district, and a copy of permit granted will be forwarded to the Thoogyee (or Kyonoke) concerned, to enable him to keep a check on the cutters.

7. The permit will be in force till the 30th April in each year, and any trees included in the permit which have not been felled and taken away up to that date will revert to Government. After a permit has lapsed the same person may receive another for the same forest tract.

8. It will be the duty of the Thoogyee (or Kyonoke) to see if the logs cut are undersized or not, and for this purpose he will from time to time, as necessary, personally inspect the same on the spot where they may be felled, and he is held responsible that any infringement of these rules by the cutters is immediately reported to the Deputy Commissioner of his district.

9. Wood-cutters are to be distinctly informed by both the permit-holder for whom they work and by the Thoogyee (or Kyonoke) of the circle, of the number of trees to be cut down, and wood-cutters dishonestly cutting down more trees than in the permit are subject to be proceeded against according to law.

10. One half of all fines or damages paid under these rules, will be payable under the orders of the Deputy Commissioner to the Thoogyee or other person by whom the infringement of rule, under which the fine or damage has been imposed, shall have been detected and brought to notice.

R U L E S

FOR EXAMINATION IN THE BURMESE LANGUAGE.

Dated Rangoon, 20th March 1865.

With the sanction of His Excellency the Viceroy and Governor General in Council, the following rules in supersession of existing regulations on the subject of examination in the Burmese language, are published for general information :—

Preamble.

The revised rules are not intended to raise the standard of the first examination beyond what has hitherto existed, but to apply the rules on the subject promulgated by His Excellency the Governor General in Council, under date the 9th September 1864.

There will be two standards of examination in the Burmese language.

The object of the first examination is to ensure that officers passing it, shall have acquired such a knowledge of the Burmese language, as shall qualify them, so far as that language is concerned, for general civil employment in British Burma.

To this end candidates will be tested as to their ability :—

1. To read and construe passages in ordinary easy books in Burmese.
2. To show some acquaintance with the writing and spelling of the Burmese language.
3. To read and translate petitions in Burmese.
4. To converse with a native of British Burma.

First. Translating with sufficient accuracy in writing, not less than an ordinary octavo page of Latter's selections, viz., the Thoodamatsarie, Damapada, and Pootsa Bageena. Tests for first
or lower stand-
ard.

Second. To write from dictation in Burmese not less than half a page of the book called the Dama-that, or laws of Menu.

Third. Reading fairly and translating with tolerable accuracy, a manuscript written in the Burmese language. The manuscript should be selected from the petitions filed in Court. It should be written with clearness, but in such a manner as fairly and honestly to represent the written characters, as practically employed amongst Burmese in the province of British Burma.

Fourth. Conversing with the examiners, or a native of Burma, with sufficient correctness to be intelligible.

Every candidate passing the above examination will be entitled to a donation of 250 rupees.

The second examination will be similar in principle, but more difficult in degree. It will supersede the Burmese portion of the examination now held for junior officers of the Commission, but it will be necessary to pass it, before promotion to a Deputy Commissionership.*

First. Reading fluently, and construing with readiness and accuracy an ordinary octavo page of Latter's selections or Way-than-da-ya. Tests for second
or higher stand-
ard.

Second. Translating accurately, and with correctness of idiom, and grammar, not less than half an ordinary octavo page of plain English,

* These rules apply only to those officers who entered the Commission AFTER the 20th of March 1865.

into language similar to that of Thoodamatsarie. The translation to be written in the Burmese character.

Third. Reading fairly, and translating readily and correctly, a manuscript written in the Burmese language. The manuscripts may be selected from the proceedings of a case in Court, from the reports, or petitions addressed to civil or military authorities, from letters passing between native Burmese in the ordinary course of business, or from private correspondence. They should not be written with the clearness of a printed book, nor yet in a cramped or crabbed hand, but in such a manner as fairly and honestly to represent the written characters as practically employed amongst the Burmese in the province of British Burma.

Fourth. Conversing with the examiners, or with a native of Burma with fluency, and with such correctness of pronunciation, grammar, and idiom as shall be at once intelligible.

Every candidate passing the above examination, will be entitled to a donation of 500 rupees.

With the sanction of His Excellency the Viceroy and Governor General in Council, the Burmese language is substituted for Persian as regards the qualification of officers for civil-political employ in British Burma.

The proceedings of Government No. 1484, of 5th December 1864, published in the *Gazette of India*, page 947, of that year, prescribing that a knowledge of the Persian language is essential to the admission of a military officer for employ in the civil-political department, will accordingly have no force in British Burma.

The above examination will be held on the 15th of April and October, at Rangoon, under the presidency of the Deputy Commissioner; should those dates fall on a Sunday, candidates will be examined on the day following.

R U L E S

The candidate will be required.

1. To read and construe any portion of the four gospels.
2. Read and translate a petition.
3. Converse with a native in the Sgau tongue.

A donation of rupees 250 will be awarded to the candidate who passes the above tests.

As occasion requires, special orders will be issued for the assembling of committees to examine candidates in the above tests.

This paper will be prepared and read slowly to the candidate by a member of the committee, whilst another member will take down the translation made by the candidate. The candidate will be expected to translate such paper with readiness, correctness of idiom and tolerable accuracy of grammar.

A donation of rupees 180 will be awarded to whomever passes a successful examination.

FOR THE DISPOSAL OF DEAD BODIES IN THE CHIEF
TOWNS OF BRITISH BURMA.

Dated 18th September 1865.

1. In cases of dead bodies found, and in cases of sudden, unnatural, or suspicious deaths, the Police officer to whom it first becomes known will immediately report thereon to the nearest station-house, from which place a guard will be placed over the body, and an immediate report made to the Inspector of the division. This guard must be maintained until the body is removed.

2. The Inspector will make an immediate personal report to the Magistrate and abide by

his orders, reporting at the same time to the Assistant or Superintendent of Police.

3. Should the Magistrate decide at once to see the body, the Inspector will accompany him; should the Magistrate be unable to proceed at once, he will direct an examination to be made by the Medical officer, during which the Inspector must be present. In either case he will then take down a minute description of the body, the position in which it is found, any wounds or injuries that may be discernable, and gain as much information as possible regarding the circumstances attending death.

4. Under all circumstances the Inspector must be present when the Magistrate views the body, and he shall apply to the Magistrate for instructions as to its disposal.

5. Long exposure of the body is to be avoided, and it is the duty of the Police when this may appear likely to occur, to apply to the Magistrate for permission to remove it to the dead house attached to the dispensary. Until orders have been granted by the Magistrate, it should be preserved as much as possible in the position in which it was originally found.

6. The following form will be entered at the bottom of the memo. which is sent to the Civil Surgeon in case of forwarding dead bodies for examination :—

Name of deceased.	Rank, calling or occupation.	Cause of death.	Date of death.	Religion.

The 1st, 2nd, 4th and 5th columns should be filled up if possible when the memo. is sent, it being understood that no delay in submitting the

body for examination be allowed to arise therefrom. And if the information cannot at once be furnished, it is the duty of the Police immediately to make diligent inquiry for the particulars required, and to communicate them to the Medical Officer.

7. It is the duty of the Police Inspector to be present at the hospital when the post-mortem examination is made, (not necessarily in the dissecting room) with the manifest object of obtaining the earliest information as to the cause of death.

Should more important duties prevent the Inspector being present, he must direct an intelligent subordinate Police officer to be there, ready to bring the report as soon as the examination is over.

It being understood that this latter course be looked on as exceptional, and that except on emergent occasions, the Inspector is to be present in person.

8. At the conclusion of the post-mortem examination, there should be placed before the Civil Surgeon making the same.

1.—The usual printed form of post-mortem examination report.

2.—If the subject is a Christian, a form of certificate of cause of death—as given in para 6. These the Civil Surgeon should fill in and give over to the Police officer in attendance.

9. The Police officer should hand the first of these to the Magistrate, and the second to the clergyman or other person performing the burial service, as a voucher from which the entry in the burial register is to be made.

10. The body should on the conclusion of the Surgeon's examination be made over, if so desired, to the friends or relatives of the deceased, or

if a pauper and no one to bury him, the Police should arrange for the burial of the defunct in a decent but inexpensive way. The Magistrate, on the production of the voucher, paying over to the Police the amount of the expense, and charging it to either the municipal fund or the Government, as appears proper in each case.

GRANT-IN-AID RULES.

Rangoon, 15th November 1865.

The following revised rules for grants-in-aid in Bengal have been sanctioned by letter from the Secretary to the Government of India, home department, No. 2170, dated 22nd August 1864, as applicable to British Burma, with the exception of those printed in italics, which are subject to modification according to the circumstances of each school for which a grant may be sought :—

The local Government, at its discretion, and upon such conditions as may seem fit in each case, (reference being had to the requirements of each district as compared with others, and to the funds at the disposal of Government,) will grant aid in money, books, or otherwise, to any school under adequate local management, in which a good secular education is given through the medium either of English or the vernacular tongue.

2. In respect of any such school for which application for aid is made, full information must be supplied on the following points :—

Firstly.—The pecuniary resources, permanent and temporary, on which the school will depend for support.

Secondly.—The proposed monthly expenditure in detail.

Thirdly.—The average number of pupils to be instructed, specifying boys and girls.

Fourthly.—The persons responsible for the management.

Fifthly.—The nature and course of instruction.

Sixthly.—*The number and salaries of Masters and mistresses.*

Seventhly.—The nature and amount of aid sought.

Eighthly.—The existence of other schools receiving aid within a distance of six miles.

3. Any school to which aid is given, together with all its accounts, books, and other records, shall be at all times open to inspection and examination by any officer appointed by the local Government for the purpose. Such inspection and examination shall have no reference to religious instruction, but only to secular education.

4. The Government will not interfere with the actual management of a school thus aided, but will seek, upon the frequent reports of Inspectors, to judge from results whether a good secular education is practically imparted or not; and it will withdraw its aid from any school which may be, for any considerable period, unfavorably reported upon in this respect.

5. In giving grants-in-aid, the following principles will be observed:—

(a) The Government will always endeavour so to give its aid that the effect shall not be the substitution of public for private expenditure, but the increase and improvement of education.

(b) *Grants will be given to those schools only (with the exception of normal schools and girls schools) at which fees of reasonable amount are required from the scholars.*

(c) In no case will the Government grant exceed in amount the sum to be expended on a school from private sources.

(d) For schools educating up to the university entrance standard, the Government grant will not, as a rule, exceed one-half of the income guaranteed from local sources.

(e) *For other schools in which the expenditure is more than rupees thirty per mensem, the Government grant will not, as a rule, exceed two-thirds of the income guaranteed from local sources.*

(f) The proportional amounts above laid down for Government grants are *maximum* amounts; and must not be assumed that the *maximum* will, in all cases, and as a matter of course, be sanctioned.

(g) The conditions of every grant will be subject to revision periodically, at intervals of five years, commencing from the date of sanction.

6. It is to be distinctly understood that grants-in-aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any school on the ground that any particular religious doctrines are taught or not taught therein.

The following clause of the rules for grants-in-aid for building purposes in the Madras Presidency are, under the authority of Government, conveyed in letter No. 2857, dated the 21st September 1864, made applicable to British Burma:—

4th. That in the event of any building, towards the erection, purchase, enlargement or repair of which a grant may have been made by Government, being subsequently diverted to any other than educational purposes, the Government shall have the option of purchasing the building at a valuation to be determined by arbitrators, credit being given for the amount of the grant which may have been made by Government.

NOTE TO RULE XV OF THE REVENUE RULES OF 1862, BEING RULE XVII OF 1865, REGARDING MORTGAGED LAND IN BRITISH BURMA, IS HEREBY PUBLISHED FOR GENERAL INFORMATION.

Rangoon, 6th August 1866.

Act XIV of 1859 was extended to Tenasserim by public notification on the 3rd of June 1859; and to Arakan on the 24th of February 1864. The Act therefore under section 24 thereof took effect two years afterwards in each of those divisions. In Tenasserim therefore rule 15 (now 17) of the revenue rules of British Burma did not

operate. In Arakan it had no operation after the 24th of February 1866.

In Pegu Act XIV of 1859 was introduced by section 24 of Act I of 1863. Under that section, the section number 15 of Act XIV of 1859 was not to apply to "any claim to foreclosure arising under any deed or instrument of mortgage of immovable property in Pegu" executed before the date aforesaid, (date when the Act came into operation,) but every such claim, as far as the law of limitation is concerned, was to be governed by the laws or rules then in force in the province.

For Pegu therefore it must be understood that clause 15 of section 1 of Act XIV of 1859 operates regarding mortgages effected since the 1st of May 1863 when the Act came into force; but that mortgages previous to that date would be regulated by the revenue rule 15 of the edition of 1862, which is identical with No. 17 of 1865.
